

 Location Information		System-Owned Portion					Customer-Owned Portion				Auto-Calculated	
Required		Required	Required	Required	Required	Required	Required	Required	Required	Required	Required	Auto-Calculated
A Unique ID is recommended for each service line.		Water systems must track addresses of all service lines in their internal inventory. For the publicly accessible version, location identifiers are required for lead and galvanized requiring replacement. If the system does not use addresses for their location identifier, other options could include GPS coordinates, landmark, intersection, block, or other details to specify service line locations.					Dropdown list includes recommended subclassifications.	Select option from drop down list. If "Other," describe in the Notes field	Dropdown list includes recommended subclassifications.	Select option from drop down list. If "Other," describe in the Notes field	Select Yes, No, or Don't Know	If Private or System-Owned AND service line is Lead or Unknown, Lead. If Steel and has ever been downstream or downstream is unknown, "GRR". Otherwise, "Non-Lead".
