1

### Research - Fact Finding

We dig in to existing information, find out what we don't know, conduct interviews, and pull in skilled market researchers when we need to.

2

### Strategy - Campaign Planning

We develop communications strategies based on a thorough evaluation of audiences, available channels, and insights uncovered during research. We follow a framework that aims to tailor messaging to and move audiences from awareness to acceptance to action. We map out what we want each audience to know, then feel, then do, being mindful of what obstacles they will need to overcome.

Because we provide creative direction, we ensure that all final deliverables are aligned to meet the objectives of the campaign.

4

### Measurement

During campaign planning and strategy, we assign key metrics to our efforts to ensure that we are moving audiences from awareness to acceptance to action.

OUR  
PROCESS

# HOW WE WORK

## We make project tracking transparent and seamless.

Each proposed initiative or project request would be scoped upfront by the number of estimated hours. These hours would be allocated to tasks or creative deliverables within the project, and would be tracked in terms of drawing down from a central bank of retainer hours. The volume of hours purchased in the master agreement would determine the individual project costs based on the volume discount hourly rate outlined in pricing.

1

### Kick-off Meeting + Needs Assessment

Fields & Co. would conduct a comprehensive assessment of needs for each overarching initiative based on a standardized communications brief (provided to client by Fields & Co.) and series of in-person meetings.

2

### Scope of Work Proposal

Fields & Co. would prepare and submit a detailed proposal based on the assessed needs for the initiative including the number of estimated hours for all project management, strategy, and production support. The cost of the initiative would be based on the number of estimated hours at the agreed-upon hourly rate from the chosen volume of banked hours.

3

### Comprehensive Project Planning + Management

Fields & Co. would develop a detailed project plan following major milestones that include:

- Research and fact finding
- Strategy and campaign planning
- Creative execution
- Reporting and measurement

4

### Project Review, Feedback, and Budget Tracking

Fields & Co. would conduct regular project reviews to gather feedback and report out on progress. Individual projects (based on budgeted hours) would be connected to a comprehensive dashboard to provide visibility and report holistically on status of the bank of hours.
