SEAT BELT GRANT-POST APPROVAL:

Ron McGlocklin explained to the Council, the grant is a 75/25-match grant for equipment. They plan to purchase a radar unit with the grant. They used the grant last year to purchase two radar units. They are phasing out the old units. Each unit is \$1,038.00. They have the matching money. Mike Cornman said the reason he signed it in advance was they received it on Monday and it was due Friday. There was no Council meeting during that time so I signed it and now for the record we request post approval. Mike Cornman recommended to the Council that they approve the seat belt grant already signed. Gina Hawkins so moved. Geraldine McIntyre seconded. Motion passed 5-0.

INTERLOCAL AGREEMENT BETWEEN THE TOWN OF ELLETTSVILLE AND THE RICHLAND BEAN BLOSSOM SCHOOL CORPORATION:

SUPERVISORS:

FIRE DEPARTMENT-JIM DAVIS:

Jim requested the Councils permission for Mike Cornman to sign the paper work from Bank One required to pick up the new fire truck. Mike signed the original papers to put the money into escrow and he needs to sign the papers to get it out of escrow. The truck will be ready by the end of the month. Geraldine made the motion for Mike to sign the proper papers to release the money for the fire truck. Don Ashley seconded. Motion passed 5-0.

POLICE DEPARTMENT-RON MCGLOCKLIN:

Ron said they would have all the receipts, from the lightning strike, ready to go to the insurance company by the following weekend.

The Town had some vandalism. The Police Reserve's car had three tires slashed while parked at the Police Station. There was also a large truck, with four-wheel drive, that drove through several yards in Greenbriar knolls causing a lot of yard damage and a little bit of property damage. On Sioux and Tecumseh street signs and stop signs were driven down. This all happened early Sunday morning after 2:00AM. The Police are going to concentrate a little more patrol in the additions.

UTILITY DEPARTMENT-MIKE FARMER:

Highway 46 update: Mike Farmer reported they were going to start at Wickes at the railroad track, but as you know, we started at IGA. We actually started at Briargate. There were so many conflicts with utilities on the West End we had to move until we can make other arrangements with Smithville Telephone and The Sewer Company. One good thing about this project there is plenty of places to work. After getting across the IGA entrance, which was tedious and hard to do, we made some good progress. We will go across Union Valley Thursday night after 10:00PM. We will put up all the proper signs. We are working with the state, they will tell us how they want the signage. It should not cause any problems with the traffic flow after 10:00PM.

COMP OR OVERTIME REQUEST:

In accordance with Special Exceptions in Ordinance 98-3, which reads as follows: The Town Marshal or Fire Chief or Street Commissioner will not receive overtime pay for hours. In special circumstances with documentation, overtime may be approved by the Town Council and, if approved, may be taken in overtime pay or comp time.

Ron McGlocklin is requesting 11.63 hours of straight time, not really overtime pay, but straight hours.

Gina Hawkins ask why Ron is taking straight time. After some discussion, the request was tabled until they could consult with the Clerk-Treasurer.

ELLETTSVILLE STORM WATER/JACKS DEFEAT CREEK PROJECT:

The grant from IDEM to conduct a study of Jacks Defeat Creek and Ellettsville storm water is underway. There is now a web site on the project for all the world to see.

SKATEBOARD PARK:

Don Ashley ask if the kids are using the Skateboard Park because they are certainly using my street. He saw 3 or 4 of them going down Kelly Drive Sunday afternoon. They were moving right along. I did not know they could move that fast. He commended that the young people grouped together to build the skateboard park and now they are not using it. Don ask is there not a way we can keep them off the streets. Jay Humphrey responded we do not have an ordinance concerning skateboarding on the streets. We have had some complaints on skateboarding. The Council might consider passing an ordinance addressing skateboarding on the roadways. Jay did not see anything in State Statue on skateboards. Don Ashley feels there is a potential for an accident with the skating in the streets. There was more discussion on the use of the Skateboard Park. Mike has seen a few at a time there and a few times, there have been several there. There has to be an adult there when it is open. Mike Cornman said they formed their own association to address that and make sure they had enough money for the liability insurance. Mike Cornman said they would ask a representative to be at the next Council meeting so they could see what is going on.

ADJOURNMENT:

Mike Cornman asked is there a motion to adjourn. Gina Hawkins so moved. Geraldine McIntyre seconded. Motion passed 5-0.
