February 4, 2021

The Ellettsville, Indiana, Plan Commission met in regular session on Thursday, February 4, 2021, via Zoom meeting. David Drake called the meeting to order at 6:00 p.m. and Dan Swafford led the Pledge of Allegiance.

Roll Call: Members participating were: David Drake, President; Dan Swafford, Vice President; Don Calvert; Sandra Hash; Pamela Samples; and Pat Wesolowski. Terry Baker was absent. Kevin Tolloty, Planning Director; Denise Line, Secretary; and Darla Brown, Town Attorney; were also present.

Approval of the Minutes

David Drake entertained a motion to approve the minutes for the regular meeting on January 7, 2021. Dan Swafford so moved and Pamela Samples seconded the motion. Roll call vote: David Drake – yes; Dan Swafford – yes; Don Calvert – yes; Sandra Hash – yes; Pamela Samples – yes; and Pat Wesolowski – yes. Motion carried.

Monthly Conflict of Interest Statement

Old Business

New Business

David Drake advised the following agenda items would be tabled for discussion at a later meeting: Waiver for Centennial Park, Phase III, Preliminary Plat Approval for 47 lots in the Ellis Ridge Subdivision; and the Rezone for a portion of 3888 W. State Road 46.

The order of the agenda items was changed to expedite those items being tabled.

Waiver from Subdivision Regulations for Centennial Park, Phase III (38 lots); Petitioner: Centennial Park, LLC; Case No. PC21-03

David Drake requested a motion to table PC21-03. Pat Wesolowski so moved. Pamela Samples seconded. Roll call vote: David Drake – yes; Dan Swafford – yes; Don Calvert – yes; Sandra Hash – yes; Pamela Samples – yes; and Pat Wesolowski – yes. Motion carried.

Preliminary Plat Approval for Forty-Seven (47) Lots in the Ellis Ridge Subdivision located at 3888 W. State Road 46 (17.53 Acres); Petitioner: Blackwell Contractors, LLC; Case No. PC21-02

David Drake requested a motion to table PC21-02. Sandra Hash made a motion to table PC21-02. Pat Wesolowski seconded. Roll call vote: David Drake – yes; Dan Swafford – yes; Don Calvert – yes; Sandra Hash – yes; Pamela Samples – yes; and Pat Wesolowski – yes. Motion carried.

Petition for a Zoning Map Amendment to Rezone of a Portion of 3888 W. State Road 46 from Commercial 3 to a Planned Unit Development (6.33 Acres); Petitioner: Tyler Ridge, on behalf of the Ridge Group; Case No. PC21-05

David Drake requested a motion to table PC21-05. Sandra Hash a motion to table PC21-05. Pat Wesolowski seconded. Roll call vote: David Drake – yes; Dan Swafford – yes; Don Calvert – yes; Sandra Hash – yes; Pamela Samples – yes; and Pat Wesolowski – yes. Motion carried.

Sandra Hash commented the petitions above were tabled at the request of the Petitioners. Mr. Tolloty advised the items will be on the agenda for the March meeting.

Preliminary and Final Plat Approval for Two Lots in the Burns Subdivision located at 4760 N. Louden Road (14.4 Acres); Petitioner: Rusty and Regina Burns; Case No. PC 21-04

Kevin Tolloty, Planning Director, explained the petition is for preliminary and final plat approval of a two-lot subdivision of 14.4 acres. One lot has a house and the second lot will have a barn built on it.

Rusty Burns purchased the property in 1997. The subdivision will give them the ability to build a new home as they are now empty nesters and possibly sell the existing home.

David Drake requested a motion. Dan Swafford moved to approve PC21-04 for preliminary and final plat approval. Pamela Samples seconded the motion. Roll call vote: David Drake – yes; Dan Swafford – yes; Don Calvert – yes; Sandra Hash – yes; Pamela Samples – yes; and Pat Wesolowski – yes. Motion carried.

Planning Department Updates

Kevin Tolloty, Planning Director, described the potential cases for the next meeting.

Plan Commission Comments

Dan Swafford thanked everyone for participating in the meeting and apologized for the late notice of the cases that were tabled.

Privilege of the Floor

Adjournment

David Drake entertained a motion to adjourn. Dan Swafford so moved. Pat Wesolowski seconded. Roll call vote: David Drake – yes; Dan Swafford – yes; Don Calvert – yes; Sandra Hash – yes; Pamela Samples – yes; and Pat Wesolowski – yes. Motion carried.

David Drake announced the next meeting would be March 4, 2021, beginning at 6:00 p.m.

David Drake adjourned the meeting at 6:16 p.m.

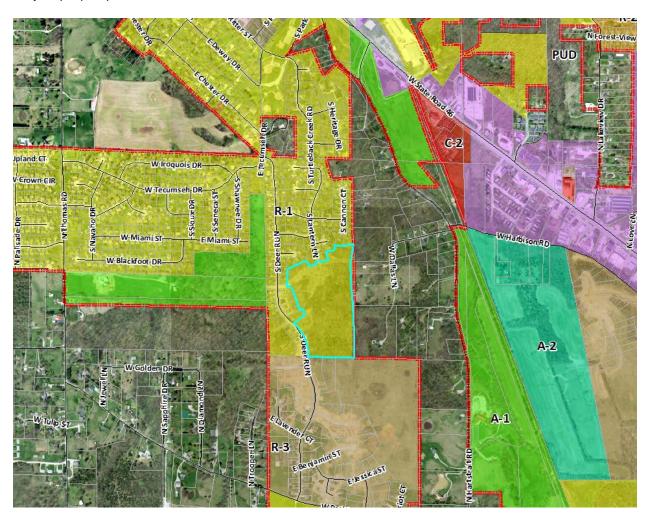

David Drake, President	Dan Swafford, Vice President
Terry Baker	Don Calvert
Sandra Hash	Pamela Samples
Pat Wesolowski	Denise Line, Secretary

PC 21-06 – Preliminary Plat Staff Report

Petition

Case - PC 21-06 – Greenbrier Knolls Subdivision, Section 9. A request by CM Ventures, LLC, for consideration of primary approval for the Greenbrier Knolls. Section 9, preliminary plat. The subject property is located at the south end of S. Lantern Lane.

	Zoning District	Property Use
North:	R-1; Single Family Residential	Residential Subdivision (Greenbrier Knolls)
South:	R-3; Multi Family Residential	Residential Subdivision (Greenbrier Meadows)
East:	AG/RR; Agriculture/Rural Reserve (County)	Unplatted Residential
West:	R-1; Single Family Residential	Residential Subdivision (Deer Run)

- 1. The applicant is requesting preliminary plat approval for a total of thirty-five (35) single family lots.
- 2. The lots are zoned R-1; Single Family Residential, and will be built with single family homes.
- 3. The subdivision will be accessed from S. Lantern Lane to the north and from S. Deer Run to the west.
- 4. The lots will meet all size and dimensional requirements.
- 5. New infrastructure will be constructed to Town requirements.
- 6. The Tech Review Committee meeting scheduled for February 16th was cancelled due to weather. Comments received from Town Departments are attached. All items have been or will be addressed by the date of the meeting.
- 7. A letter of credit will be required to cover any outstanding items prior to recording of the final plat.

Plan Commission Action

The Plan Commission action on the preliminary plat can be in the form of approval, approval with conditions, denial or to continue the hearing. The Plan Commission has the final say in these matters.

Staff Recommendation

It is of Staff opinion that the proposed plat will meet all required zoning and subdivision regulations and there are no significant concerns with the proposed plat. This section will finish out Greenbrier Knolls and add another 35 single family homes to Ellettsville. Therefore, Staff recommends that the Plan Commission approve the Greenbrier Knolls Section 9 preliminary plat.

Submitted by Kevin Tolloty, AICP Director, Ellettsville Planning February 25, 2021

Summary

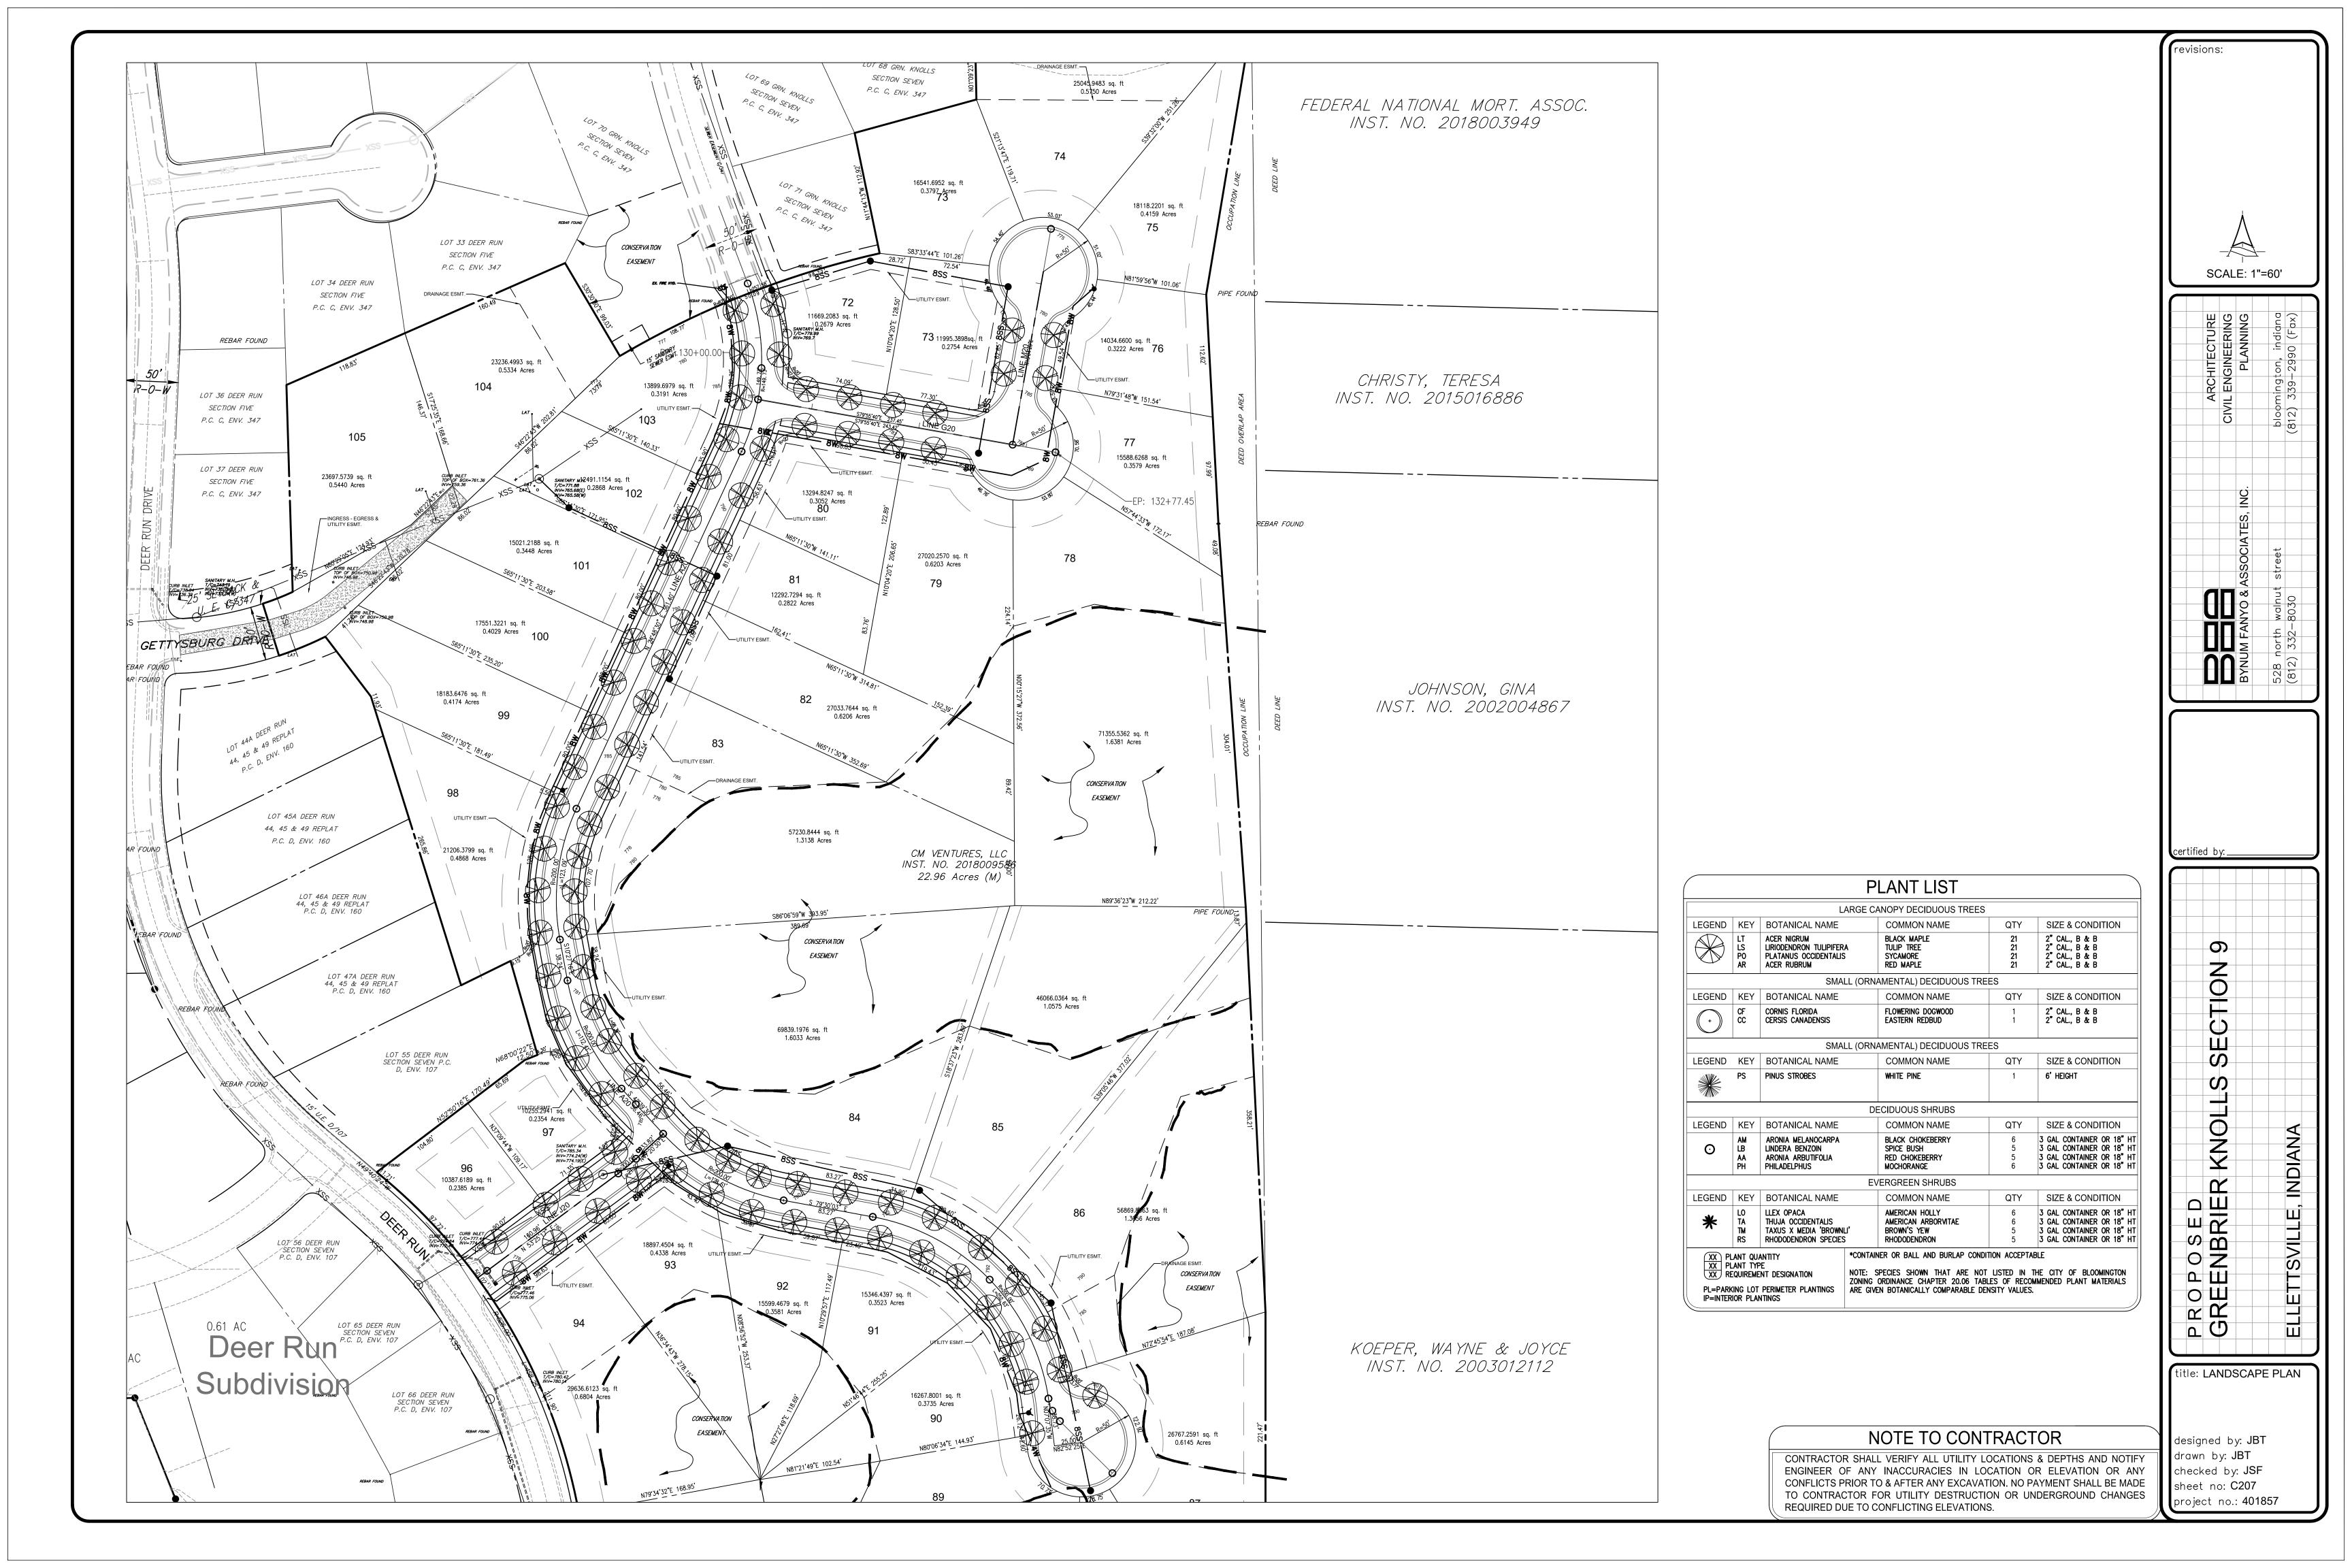

The development plan request is for the proposed Greenbrier Knolls Section 9 preliminary plat. The Technical Review Committee was scheduled to meet on February 16, 2021 to discuss the development plan. However, due to inclement weather, the meeting was cancelled. Comments included are those that have been received by the Planning Office. Any additional comments from the Technical Review committee that are not listed above, shall still be taken into consideration. Plan Commission should approve the development plan after the above mentioned items have been addressed, but may also add conditions as they see fit.

Any requested revisions may be submitted in electronic form, with paper copies only necessary after Plan Commission approval.

Submitted by Kevin Tolloty, AICP Director, Ellettsville Planning February 23, 2021

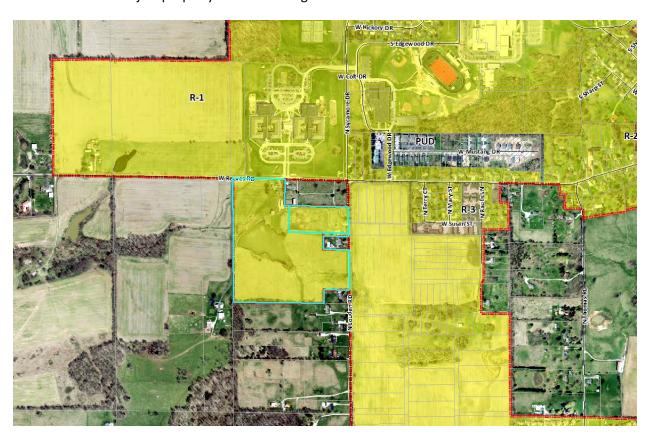

PC 21-07- Preliminary/Final Plat Staff Report

Petition

Case - PC 21-07 – Barberry Lake Estates Subdivision. A request by Josh Clark, on behalf of TreeLa, LLC, for consideration of preliminary and final plat for seven (7) lots in the Barberry Lake Estates Subdivision. The subject property is located along W. Reeves Road and S. Louden Road.

	Zoning District	Property Use
North: R-1; Single Family Residential		Edgewood Schools
South:	AG/RR: Agriculture/Rural Reserve (County)	Large Lot Residential
East: R-1; Single Family Residential		Undeveloped Residential
West:	AG/RR: Agriculture/Rural Reserve (County)	Agricultural

- 1. The applicant is requesting primary and secondary plat approval to create seven (7) lots from a thirty-six (36) acre tract of land.
- 2. Lots 1-5 will be approximately 0.5 to 0.75 acres in size and will be built with single family homes.
 - Sidewalks are proposed to be built at the rear of these lots as there is little chance for connection along Louden Road. The cemetery also poses an issue in completing the sidewalk to Reeves Road.
 - b. The path in the rear will eventually connect with other sidewalks/pathways within the subdivision leading to Reeves Road and the schools.
- 3. Lot 6 will be a little over one (1) acre in size and will contain the existing house at 7691 W. Reeves Road, which will also serve as the sales office for this subdivision.
- 4. Lot 7 is the remainder tract at just under thirty-one (31) acres. This tract will be further subdivided into additional single family at a later time.
- 5. The lots are zoned R-1; Single Family Residential.
- 6. The Tech Review Committee meeting scheduled for February 16th was cancelled due to weather. Comments received from Town Departments are attached. All items have been or will be addressed by the date of the meeting.
- 7. The lots meet all size and dimensional requirements.
- 8. Easements for access and utilities have been included as needed.

Plan Commission Action

The Plan Commission action can be in the form of approval, approval with conditions, continuance or denial of the preliminary and final plat. The Plan Commission has the final say in these matters.

Staff Recommendation

It is of Staff opinion that the proposed plat will meet all required zoning and subdivision regulations and there are no concerns with the proposed plat. Although the sidewalks will be located in the rear of the properties, as opposed to the front, it still meets the intentions of Town Code. Staff recommends that the Plan Commission approve the Barberry Lake Estates Subdivision preliminary and final plat.

Submitted by Kevin Tolloty, AICP Director, Ellettsville Planning February 25, 2021

Technical Review Meeting Notes Barberry Lake Estates Subdivision

Project Description

Location: W. Reeves Road/N. Louden Road

Size: 36 acres

Current Zoning: R-1; Single Family Residential

Planning Comments

1. Will Lots 1-5 be designed facing Louden Road or a new road on the west side of these lots?

- a. Do future plans call for a street on the west side of these lots?
- 2. Are existing pine trees along Louden Road to be removed or will they stay?
 - a. Can be used to account for a portion of the street tree requirement.
- 3. Under miscellaneous details, several items are marked as City of Bloomington. Please ensure that these details also meet Ellettsville requirements.

Fire Department Comments

No Comments

Public Works Comments

No Comments

ADA Accessibility Comments

- 1. The developer has proposed a process consolidating loose stones so they will make a hard surface in lieu of concrete for the 5' sidewalk for the 5 houses along Louden Road (only). Please include a description of this in the preliminary plat.
- 2. The legend specifies types of curb ramps. Where will any curb ramps be located and what type?
- 3. A 5' concrete sidewalk is required in front of Lot 6 as it is near the school and will join with other sidewalks as this project and others develop.

PC 21-09 – Final Plat Amendment Staff Report

Petition

Case - PC 21-09 – Autumn Ridge Phase VI Amendment. A request by Chris Bomba, on behalf of Charles Layne LLC, for consideration of an amendment to the final plat of the Autumn Ridge Subdivision, Phase VI. The subject property is located along W. Harvest Lane.

	Zoning District	Property Use
North:	C-3; General Commercial	Autumn Ridge
South:	C-3; General Commercial	Fire Department
East:	C-3; General Commercial	Commercial Storage Units
West:	C-3; General Commercial	Unplatted Residential

- 1. The applicant is requesting to remove the lot line from Lot 1 that created a single family lot and combine it with existing undeveloped land to construct two-family homes.
- 2. Phase VI is 2.04 acres in size, with each of the units comprising approximately 2,200-2,300 square foot footprints.
- 3. There will be eight (8) units altogether in Phase VI.
- 4. The remainder of the land in Phase VI will be common area.
- 5. The lots are currently zoned C-3; General Commercial and paired patio homes are permitted by right.
- 6. The easements and rights-of-way shown on the original plat will not be modified by this plat amendment.
- 7. The proposed lots will meet all size and dimensional requirements for paired patio homes.

Plan Commission Action

The Plan Commission action can be in the form of approval, approval with conditions, continuance or denial of the final plat amendments. The Plan Commission has the final say in these matters.

Staff Recommendation

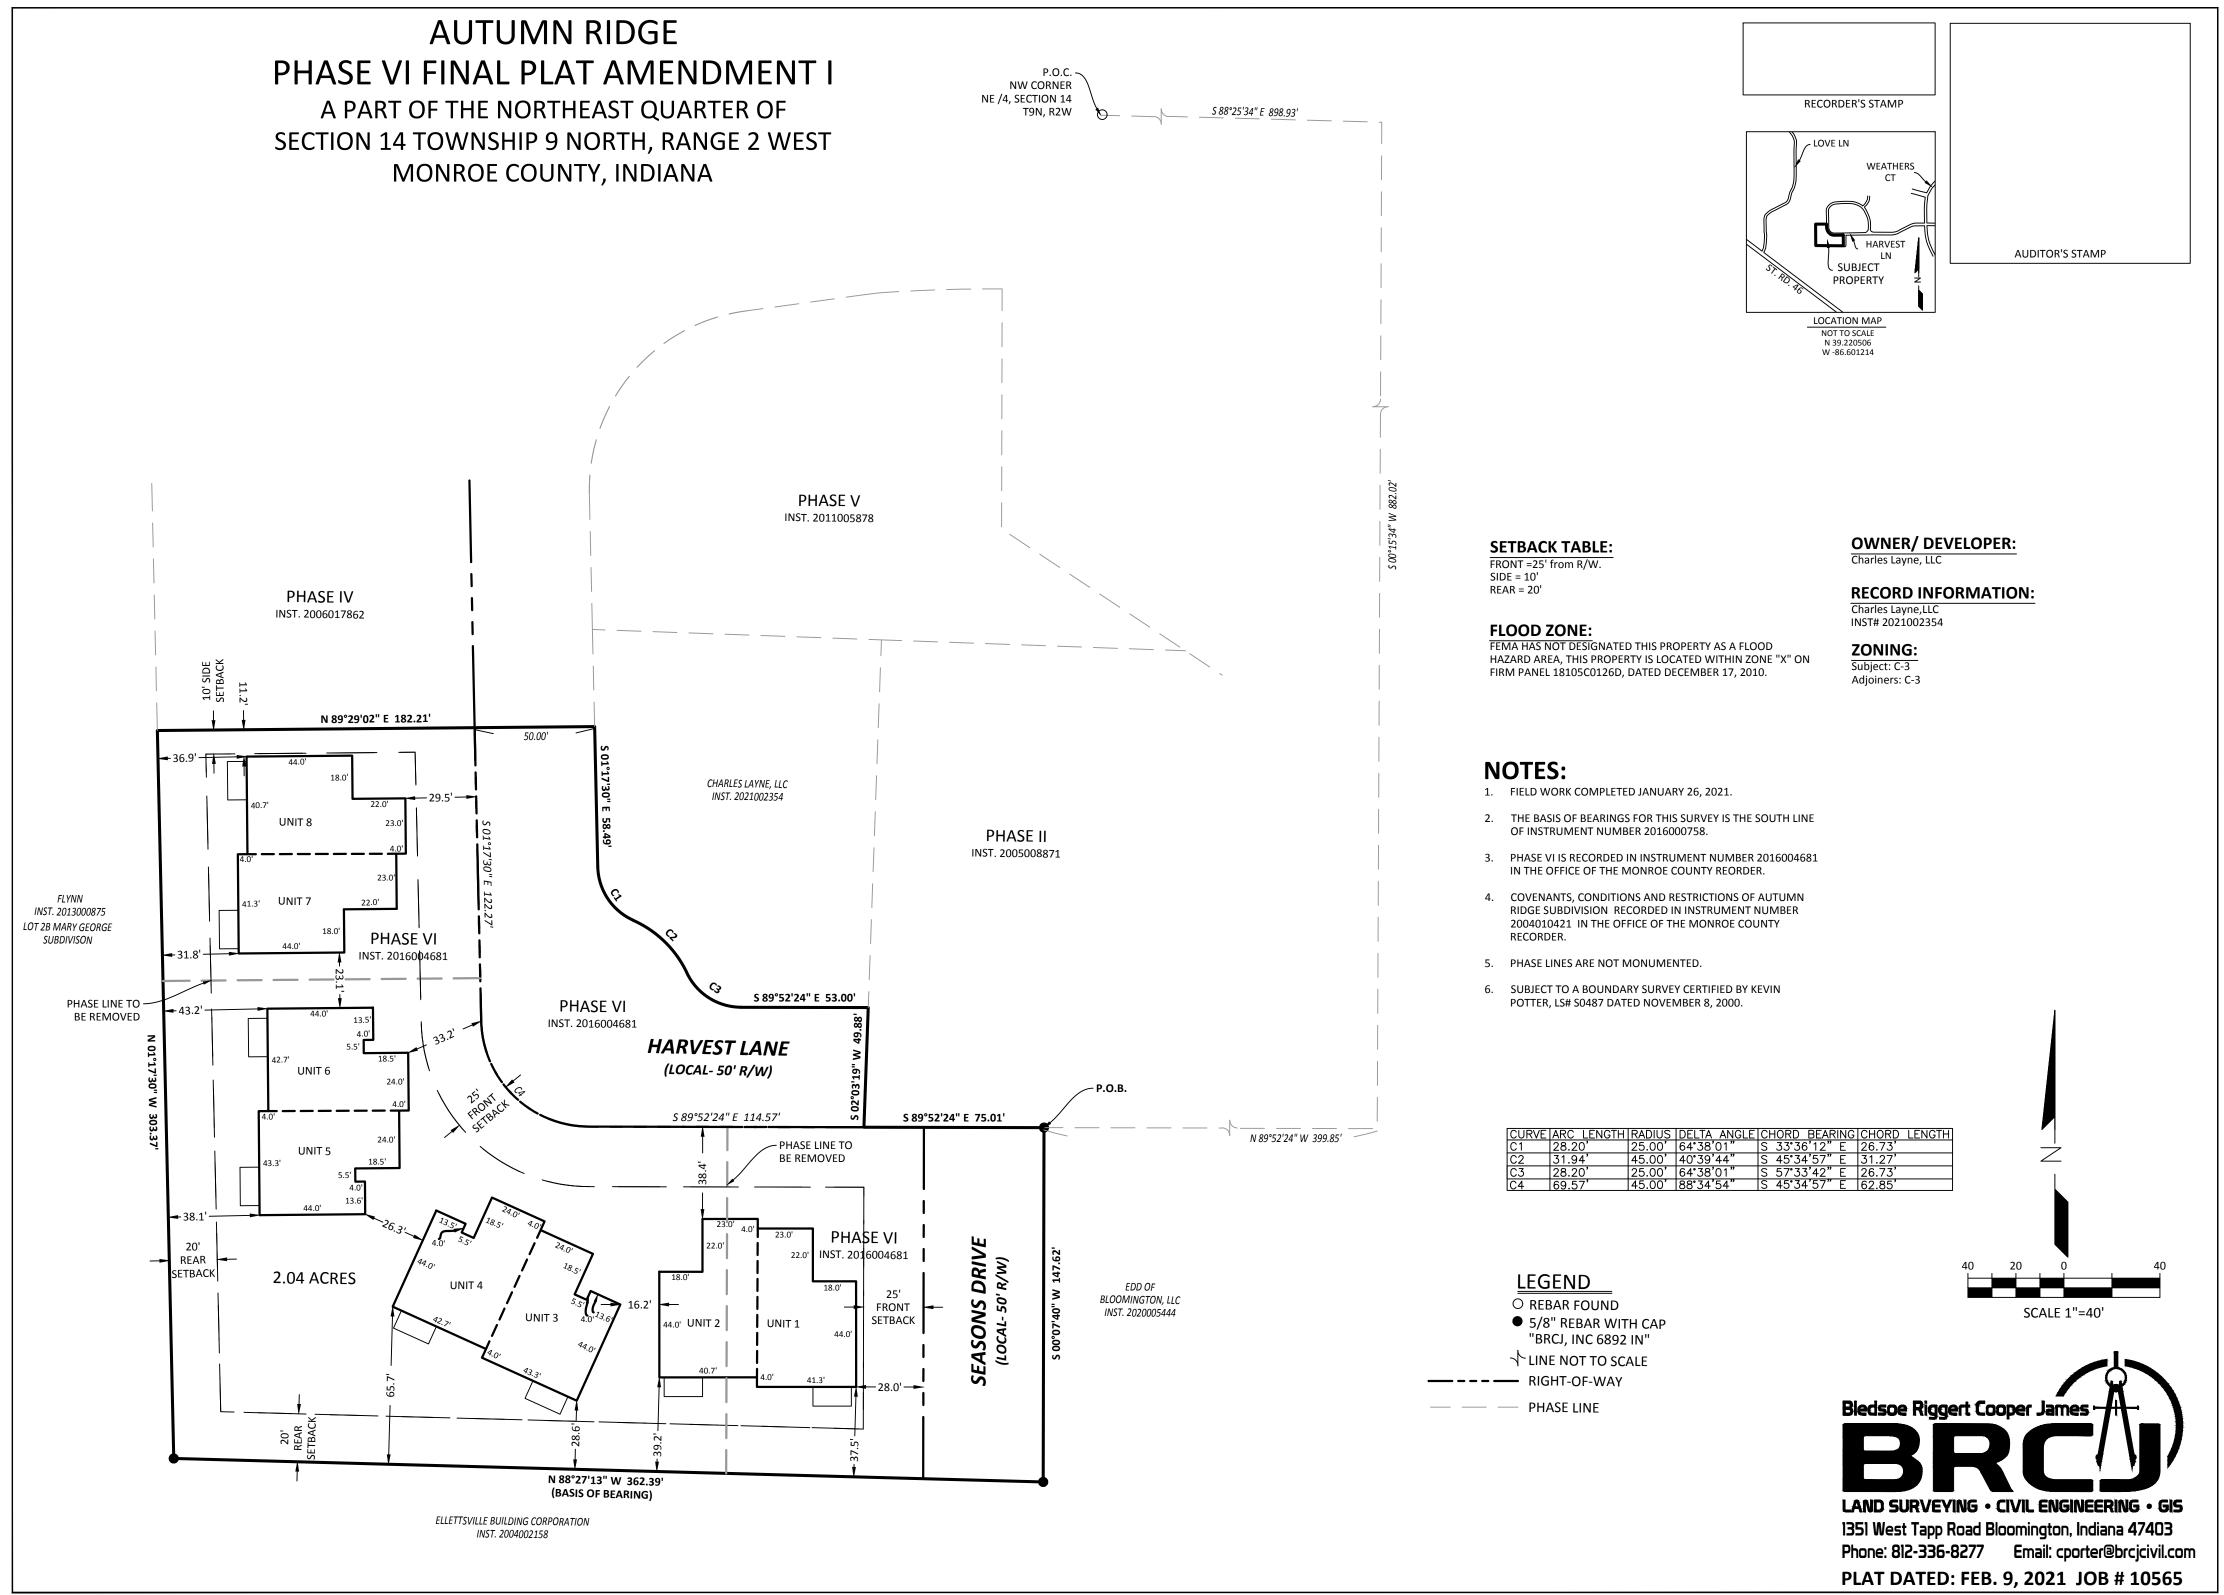

It is of Staff opinion that the proposed plat will meet all required zoning and subdivision regulations and there are no concerns with the proposed plat. Staff recommends that the Plan Commission approve the Autumn Ridge Phase VI final plat amendment.

Submitted by Kevin Tolloty, AICP Director, Ellettsville Planning February 24, 2021

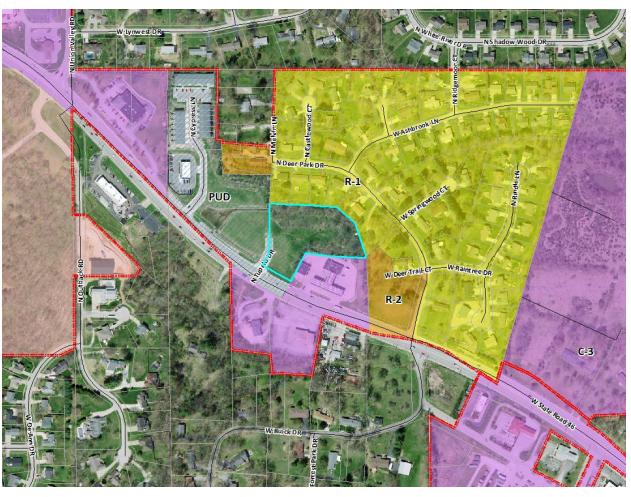

PC 21-08-Planned Unit Development (PUD) Amendment Staff Report

Petition

Case - PC 21-08 – PUD Amendment. A request by Rubicon Property Group LLC, to amend the Cedar Bluff PUD Outline Plan. The properties affected are located on N. Tupelo Drive and N. Cypress Lane.

Surrounding Zoning Districts & Uses

	Zoning District	Property Use
North:	R-1; Single Family Residential	Residential (Springs Valley)
South:	C-3; General Commercial	Mixed Commercial
East:	C-3; General Commercial/ R-1; Single Family Residential	Residential/Gas Station
West:	PUD; Planned Unit Development	Mixed Commercial

- 1. The petitioner is requesting to amend of the Cedar Bluff Outline Plan.
- 2. In accordance with both Indiana and Ellettsville Codes, amendments to a PUD are to be treated as a text amendment.
- 3. The purpose of this amendment is to allow commercial lots to have apartments on the ground floor.
 - a. The current outline plan only allows apartments on upper floors for the commercial portion of Cedar Bluff.
 - b. The amendment does not change the number of apartments that can be constructed.
- 4. The amendment would apply to the entire commercial portion of Cedar Bluff, although there are only two (2) undeveloped commercial lots remaining.
 - a. One of the undeveloped lots has already been approved for a multi-unit commercial center.
- 5. As this is to be treated as a text amendment, there are no required findings.

Plan Commission Action

The Plan Commission action shall be in the form of a favorable, unfavorable, or no recommendation to Town Council, which takes final action on the zoning map amendment petition.

Summary

The amendment of this PUD would have no effect in allowing multi-family dwelling units or the total number permitted, as those are already established in the Outline Plan. The amendment would simply allow apartments to be located in the ground floor, as opposed to being located above commercial space. As the development is already mixed commercial and residential, with additional commercial

units approved on an adjacent lot, this change should have little to no effect on the overall impact of the PUD. Therefore, Staff recommends a favorable recommendation be given to Town Council, which will have the final vote for approval on this request.

Submitted by Kevin Tolloty, AICP Director of Planning, Ellettsville February 25, 2021

Petition Description (attach additional pages as needed)

Property Owner previously submitted plans to construct a mixed-use project on Lot 1 of the Cedar Bluff PUD. The commercial component of the the initial proposal will instead be constructed on Lot 3 of the Cedar Bluff PUD as a commercial strip center. The building to be constructed on Lot 1 will be multifamily residential rental housing with ground floor amenities and leasing office. This is the preferred project site plan to avoid commercial over-saturation and to provide visibility to the commercial users along the public right-of-way.

Specifically, the Cedar Bluff PUD Outline Plan dated May 5, 2014 is to be amended as follows:

- --The final sentence of the "Proposed Uses" paragraph on page 3 of the Plan shall be deleted in its entirety and replaced by the following: "Parcel A of the development may include multifamily residential apartments with units on all floors or above commercial space."
- --The Density Development Standards for Parcel A listed on Table B (page 9) of the Plan shall be deleted in their entirety and replaced by the following: "1 Primary structure per lot. First floor commercial or office is permitted (not required). Residential uses shall be permitted at 15 units per acre or DUE**

Required Submittal Documentation

- 1. Completed and signed application
- 2. Full description of petition request
- 3. Filing Fee
- 4. Copy of deed with accurate legal description
- 5. Affidavit of property owner consent (if necessary)
- 6. Other documents/exhibits as necessary

Application deadlines:

- A. Thirty (30) days before scheduled Plan Commission meeting for major subdivisions (5 or more lots), Planned Unit Developments (PUD's), development plans and annexations.
- B. Twenty-one (21) days before scheduled Plan Commission meeting for minor subdivisions (under 5 lots), plat amendments, rezones and other petitions.

All submittals other than application (deed, legal description, plats, plans, other relevant documents) shall include electronic copies. Two large sets of preliminary plats and/or development plans shall be submitted of sufficient size to provide thorough review.

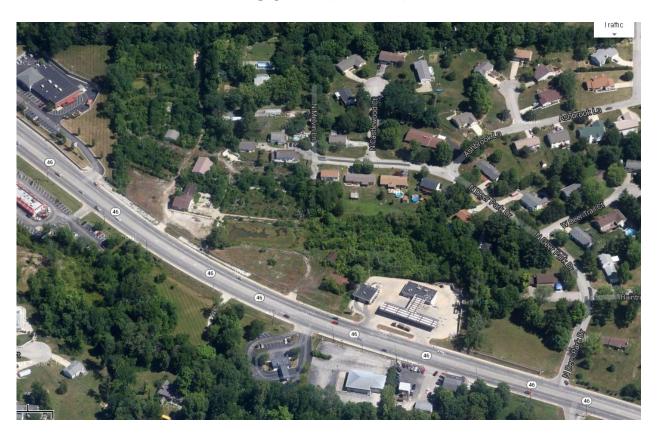

*Ten (10) copies of the plats and/or plans, 11"x17" in size, or other documents, 8½"x11" in size (not including application, deed or legal description) shall be submitted.

*Not required for virtual meetings

Petitioner Responsibilities

1. Petitioner or representative shall be present at the public hearing.

CEDAR BLUFF PUD OUTLINE PLAN

Petitioner

Rubicon Investments, LLC

1815 S. Walnut Street Bloomington, IN. 47401 812-336-2421

Consultant

Smith Brehob & Associates, Inc.

453 S. Clarizz Boulevard Bloomington, IN. 47401 812-336-6536

Date: 5-05-2014

comprised of commercial and multifamily residential components (Parcels A and B). Parcel A will be the commercial component and Parcel B will be the multifamily component. Parcel A will be approximately 6.02 acres in size and Parcel B will be approximately 1.98 acres in size.

Proposed Uses

Not all commercial uses are appropriate for this site. Cedar Bluff PUD is not intended for industrial, fuel center or manufacturing type uses. A list of permitted and excluded uses has been included in Table A. The development is intended to be a neighborhood serving development with such uses as a branch bank with drive-thru, sit-down restaurant, medical clinic, doctor's office and to provide new multifamily housing for the community. Unlike areas in Bloomington with proximity to campus, the multifamily component of the development is not geared towards the student market. The development will also include the option for upper-level residential above first floor commercial within the commercial area of Parcel A. Parcel A of the development may include multifamily residential apartments with units on all floors or above commercial space.

Illustrative Plan

An illustrative Plan has been prepared showing how the site could be developed based on permitted land uses and development standards. The key components are access location, preservation area, common area, buffer area and general lot layout. The illustrative plan shows uses considered for the property but is not intended to be a plan for development. Lot lines may be reconfigured and adjusted to meet the needs of a specific user when one has been identified. A more detailed plan will follow at the Development Plan approval stage of the project.

Preservation Area

The existing wooded area located at the eastern corner of the Parcel A area will be preserved and maintained as a buffer area. This wooded area will be a common area lot of approximately 0.5 acres in size and shall serve as a buffer area between the development and the neighborhood to the east. Removal of natural vegetation within this buffer area is not permitted without the approval of the Ellettsville Planning Department or in situations where a damaged or dead tree is threatening the loss of property or public safety. This common area lot will be owned and maintained by the Lot Owner's Association.

An area of 15' in width along the existing tree line that follows the north and west property line of Parcel B shall be preserved. Removal of natural vegetation within this buffer area is not permitted without the approval of the Ellettsville Planning Department or in situations where a damaged or dead tree is threatening the loss of property or public safety.

PC 21-03 – Waiver Request Staff Report

Petition

Case - PC 21-03 – Centennial Park. A request by Centennial Park LLC, for a waiver from subdivision regulations for Centennial Park Phase III to allow additional building lots without a second permanent access point. The subject property is located at the east end of W. Ribbon Lane.

	Zoning District	Property Use
North:	R-1; Single Family Residential	Undeveloped
South:	MR; Medium Density Residential (County)	Residential Subdivision (Highland Park)
East:	AG/RR; Agriculture/Rural Reserve (County)	Undeveloped
West:	MR; Medium Density Residential (County)	Residential Subdivision (Woodgate)

- 1. The applicant is requesting a waiver from subdivision regulations to allow thirty-eight (38) additional homes without an additional permanent access.
- 2. Currently forty (40) of seventy-eight (78) lots have been built in Centennial Park, accounting for all of the lots in the original waiver request.
- 3. A temporary access has been constructed at the Centennial Drive connection and has been used (illegally) by delivery vehicles.
- 4. The connection is blocked by barricades, but those can be easily moved in the event of an emergency.
- 5. A permanent second connection should be available in the future, but that is currently out of the of the developer's control at this time.

Plan Commission Action

The Plan Commission action can be in the form of approval, approval with conditions, continuance or denial of the waiver request. The Plan Commission has the final say in these matters.

Staff Recommendation

Although the original waiver only allowed for the construction of forty (40) lots pending the construction of a second entrance, it has become increasing apparent that external factors are working toward the prevention of said second entrance. The purpose of having a second entrance is primarily for public safety, should there be any issue with the first entrance. In this particular situation, the secondary entrance is only a temporary gravel connection, not open to the public, but would be able to serve as an emergency access if needed. Therefore, Staff recommends that the Plan Commission approve the waiver request.

PC 21-02 – Preliminary Plat Staff Report

Petition

Case - PC 21-02 – Ellis Ridge Subdivision. A request by Blackwell Contractors, LLC, for consideration of primary approval for the Ellis Ridge preliminary plat. The subject property is located at 3888 W. State Road 46.

	Zoning District	Property Use
North:	MR; Medium Density Residential (County)	Residential Subdivision (Woodgate)
South:	C-3; General Commercial	Smith Pike Plaza
East:	MR; Medium Density Residential (County)	Residential Subdivision (Highland Park)
West:	R-1; Single Family Residential	Residential Subdivision (Spring Valley)

- 1. The applicant is requesting preliminary plat approval for a total of forty-seven (47) lots. Thirty-eight (38) will be paired patio home lots, four (4) common area lots for the paired patio homes, three (3) commercial lots and two (2) future multi-family lots.
- 2. The lots are zoned C-3; General Commercial, paired patio homes are permitted by right in the C-3 zone.
- 3. No specific commercial uses have been identified, but will need to comply with the C-3 guidelines. Commercial developments will come back before Plan Commission for Development Plan approval.
- 4. The multi-family lots are planned to be rezoned as a PUD (pending future Plan Commission approval). This will be addressed in a future meeting.
 - a. In the event the multi-family is not approved, the lots would meet standards for commercial and/or single and two-family developments, and could be further subdivided.
- 5. The subdivision will be accessed from State Road 46 to the south and from W. Ashbrook Lane in Spring Valley to the west.
- 6. The lots will meet all size and dimensional requirements.
- 7. New infrastructure will be constructed to Town requirements.
- 8. The Tech Review Committee met on December 17th to review the infrastructure and overall layout. Comments from the meeting are attached. All items have been or will be addressed by the date of the meeting.
- 9. A letter of credit will be required to cover any outstanding items prior to recording of the final plat.

Plan Commission Action

The Plan Commission action on the preliminary plat can be in the form of approval, approval with conditions, denial or to continue the hearing. The Plan Commission has the final say in these matters.

Staff Recommendation

It is of Staff opinion that the proposed plat will meet all required zoning and subdivision regulations and there are no significant concerns with the proposed plat. There is some concern about the amount of traffic that will be generated, although at this time, the only defined use is the paired patio homes. A traffic study has been completed by the applicant and included as a separate file from the meeting packet. The subdivision is in the best interest of the Town and the developer as it will create affordable housing opportunities as well as several commercial options. Therefore, Staff recommends that the Plan Commission approve the Ellis Ridge preliminary plat.

Technical Review Meeting Notes Ellis Ridge Subdivision

Project Description

Location: 3888 W. State Road 46

Size: 17.53 acres

Current Zoning: C-3; General Commercial

Planning Comments

1. A landscape plan will need to reviewed prior to the Plan Commission meeting.

- 2. Street names will need to be provided for the cul-de-sac and the road connecting Ashbrook and SR 46.
 - a. Ellis Court cannot be used as there is already an Ellis Road in Monroe County.
- 3. All paired patio homes shall have a minimum of four (4) dedicated parking spaces.
 - a. This includes any spaces in a garage, driveway, or other dedicated off-street parking.
- 4. Alleys should remain as private roads.
- 5. Final plans shall be stamped by engineer.

Fire Department Comments

Indiana Fire Prevention Code:

503.1.2 Additional Access: The fire code official is authorized to require more than one fire apparatus access road based on the potential for impairment of a single road by vehicle congestion, condition of terrain, climatic conditions or other factors that could limit access. (*Ashbrooke Lane from Spring Valley subdivision shall be connected to Ellis Ridge subdivision*)

In consideration of future development, the following shall be considered;

912.2 Location of Fire Department Connection: With respect to hydrants, driveways, buildings and landscaping, fire department connections shall be so located that fire apparatus and hose connected to supply the system will not obstruct access to the buildings for other fire apparatus. The servicing fire department shall be consulted before placing the fire department hose connections at specific locations.

C105 Distribution of Fire Hydrants: Additional hydrants may be required if the required fire flow for the Class 1 commercial buildings anticipated for Lots 1-5 are above 1,1750 gallons per minute.

TABLE C105.1
NUMBER AND DISTRIBUTION OF FIRE HYDRANTS

FIRE-FLOW REQUIREMENT (gpm)	MINIMUM NUMBER OF HYDRANTS	AVERAGE SPACING BETWEEN HYDRANTS ^{a,} b, c (feet)	MAXIMUM DISTANCE FROM ANY POINT ON STREET OR ROAD FRONTAGE TO A HYDRANT ^d
1,750 or less	1	500	250
2,000-2,250	2	450	225
2,500	3	450	225
3,000	3	400	225
3,500-4,000	4	350	210
4,500-5,000	5	300	180
5,500	6	300	180
6,000	6	250	150
6,500-7,000	7	250	150
7,500 or more	8 or more ^e	200	120

For SI: 1 foot = 304.8 mm, 1 gallon per minute = 3.785 L/m.

- a. Reduce by 100 feet for dead-end streets or roads.
- b. Where streets are provided with median dividers which cannot be crossed by fire fighters pulling hose lines, or where arterial streets are provided with four or more traffic lanes and have a traffic count of more than 30,000 vehicles per day, hydrant spacing shall average 500 feet on each side of the street and be arranged on an alternating basis up to a fire-flow requirement of 7,000 gallons per minute and 400 feet for higher fire-flow requirements.
- c. Where new water mains are extended along streets where hydrants are not needed for protection of structures or similar fire problems, fire hydrants shall be provided at spacing not to exceed 1,000 feet to provide for transportation hazards.
- d. Reduce by 50 feet for dead-end streets or roads.
- e. One hydrant for each 1,000 gallons per minute or fraction thereof.

Public Works Comments

- 1. Tracer wire should be used on all newly installed lines.
- 2. On page 24, the street sign detail shows in accordance with the City of Bloomington. Please change that to Town of Ellettsville (Town Ordinance 153.086)

ADA Accessibility Comments

No Comments

Engineering Comments

- 1. Typical sections show the sidewalk dimension as 5 feet but there is a note referring to 4 feet.
- 2. An INDOT driveway permit will be required.
- 3. Setbacks should double when the commercial sections are adjacent to the residential zoning. The rear yard setback would be increased to 40 feet instead of the 25 feet as shown. (152.190)
- 4. The GIS aerial photography shows a pond on the property. The existing contours and development plan do not indicate a pond on the property. Removal of the pond should be approved by the appropriate governmental agencies.
- 5. Water lines will need to be ductile iron pipe not C900.
- 6. Water lines should be located on the back side of the sidewalk and not under the pavement.
- 7. Please provide detail of the retaining walls.
- 8. The detention pond underdrains should be shown on the grading and drainage plans.
- 9. The sanitary sewer will be reviewed by the Eastern Richland Sewer Corporation.
- 10. Drainage calculations will need to be submitted. The detention pond in the southwest corner of the property is shown connecting to and existing structure from the Springs Valley subdivision. The existing structure has a 12-inch pipe and Str. 101 has an 18-inch outlet pipe connecting to that structure. In addition, the depth of the existing structure does not seem to be adequate to connect to Str. 101.

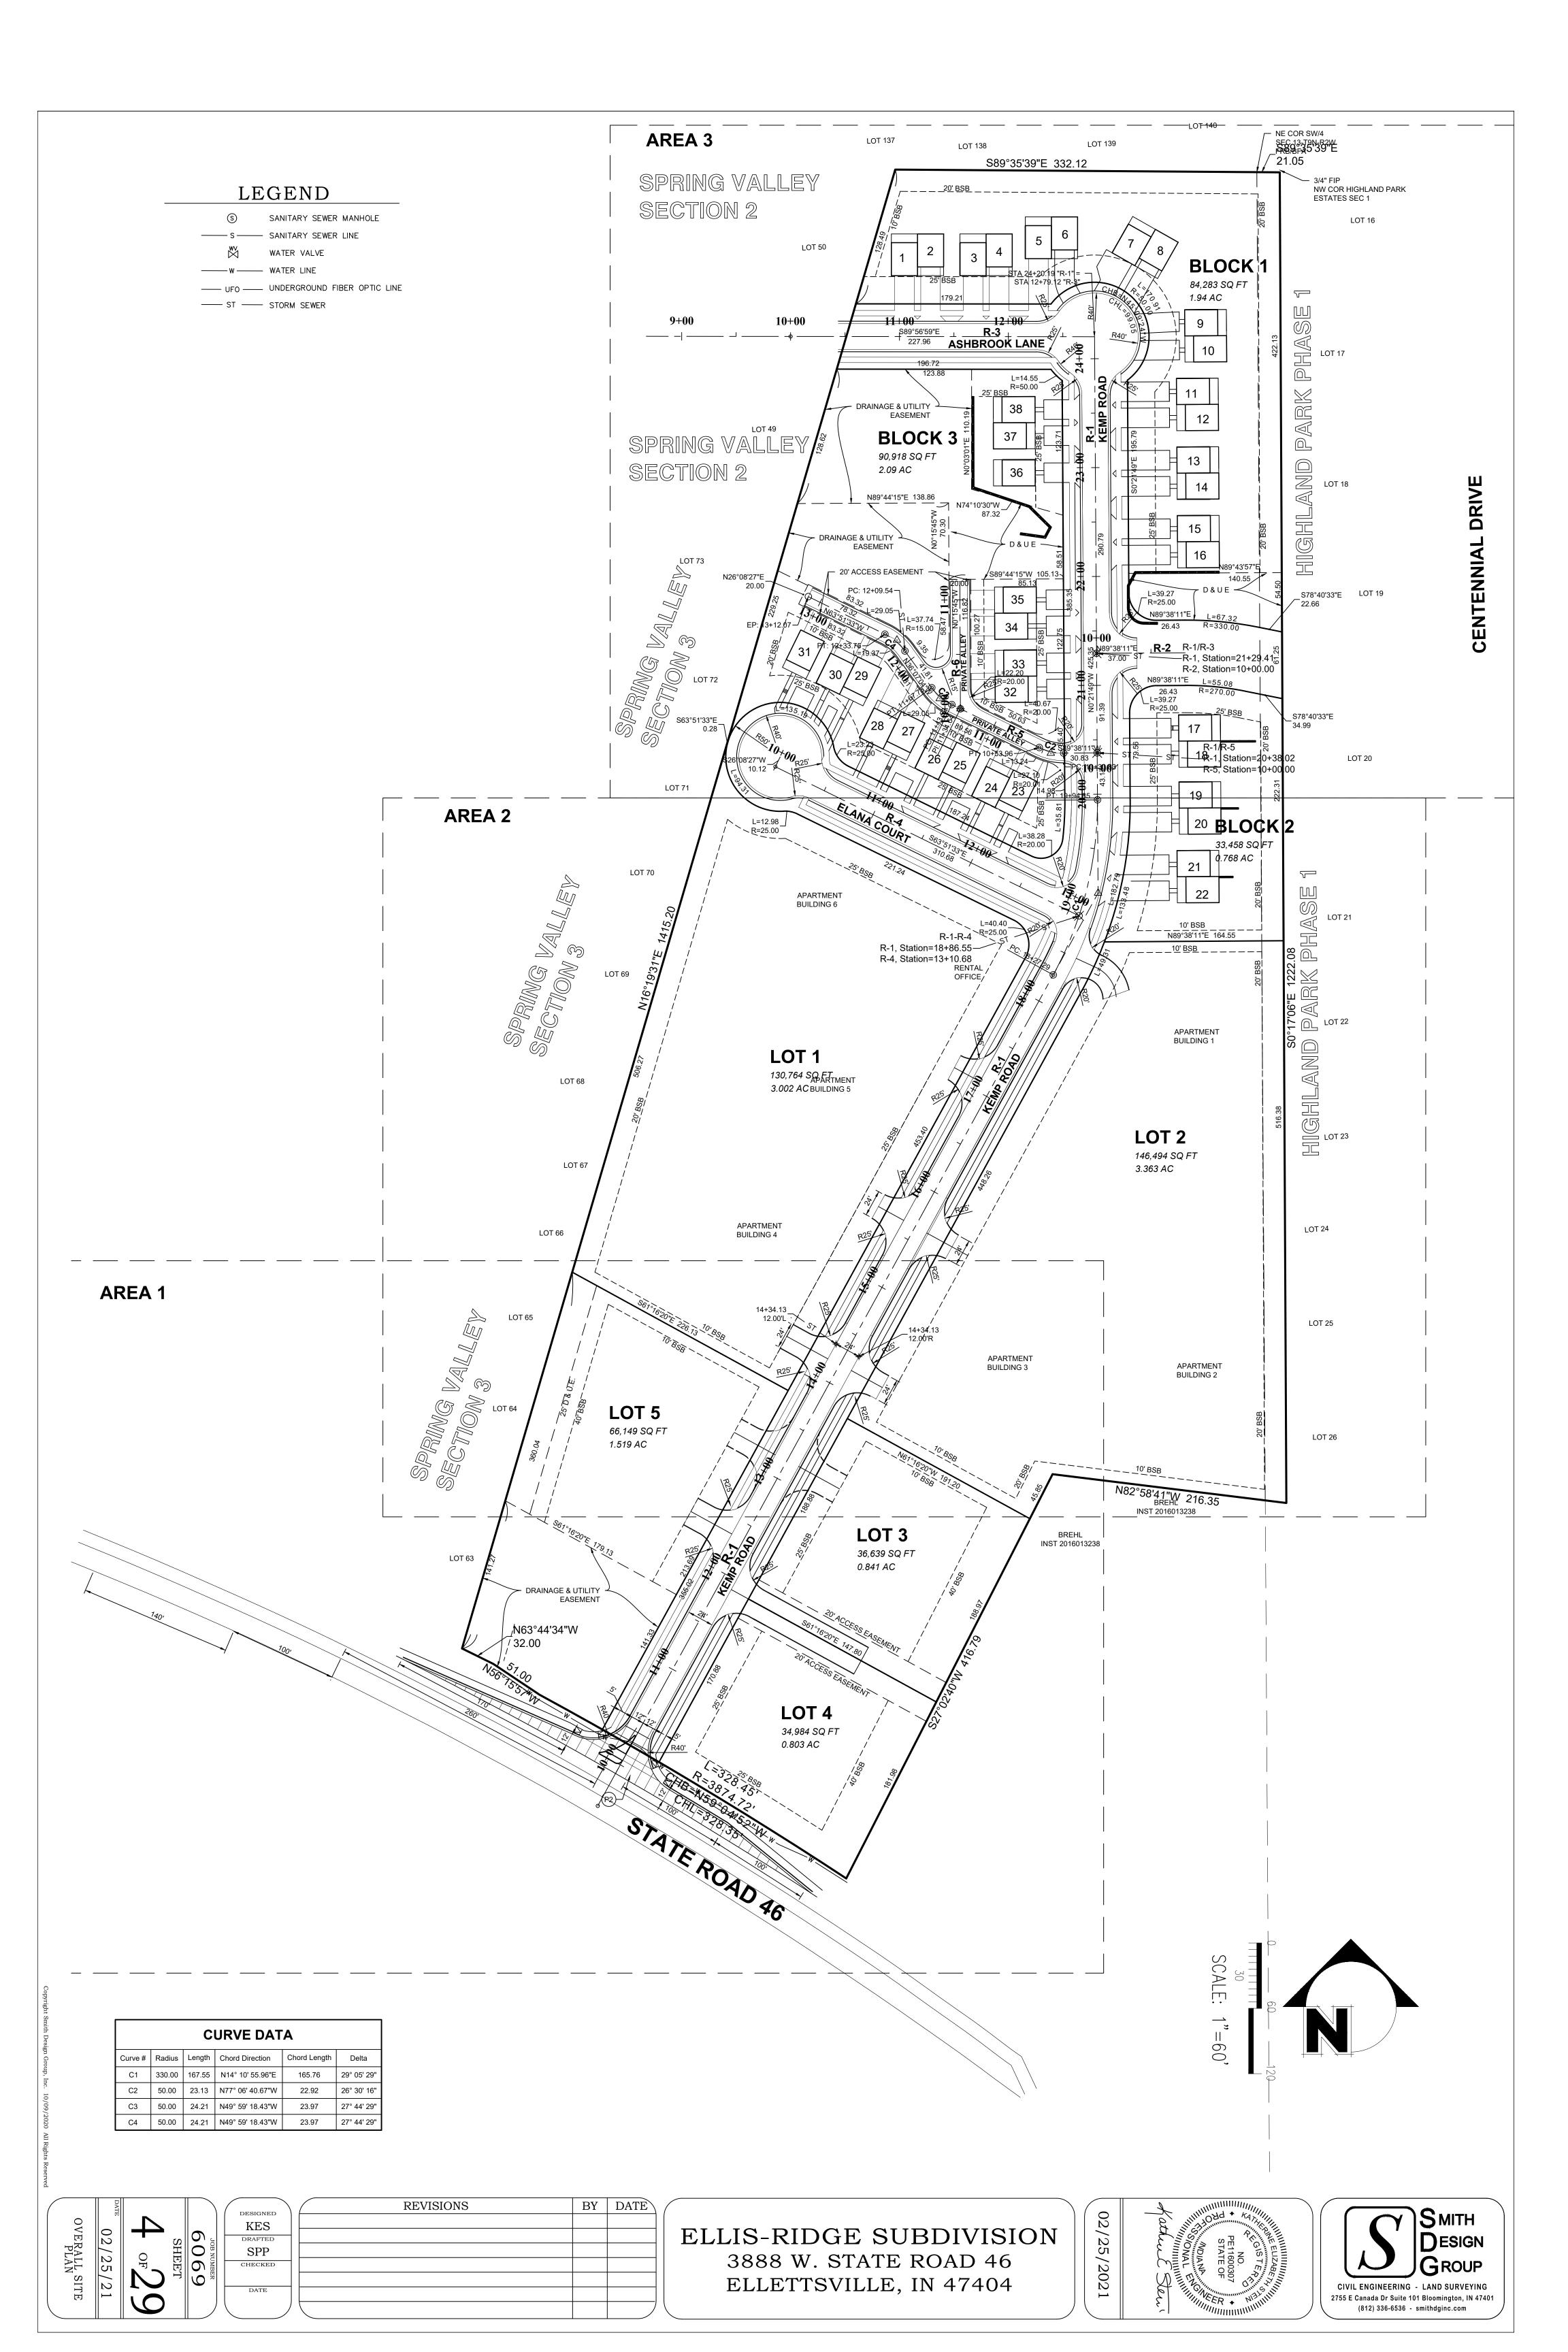

Police Department Comments

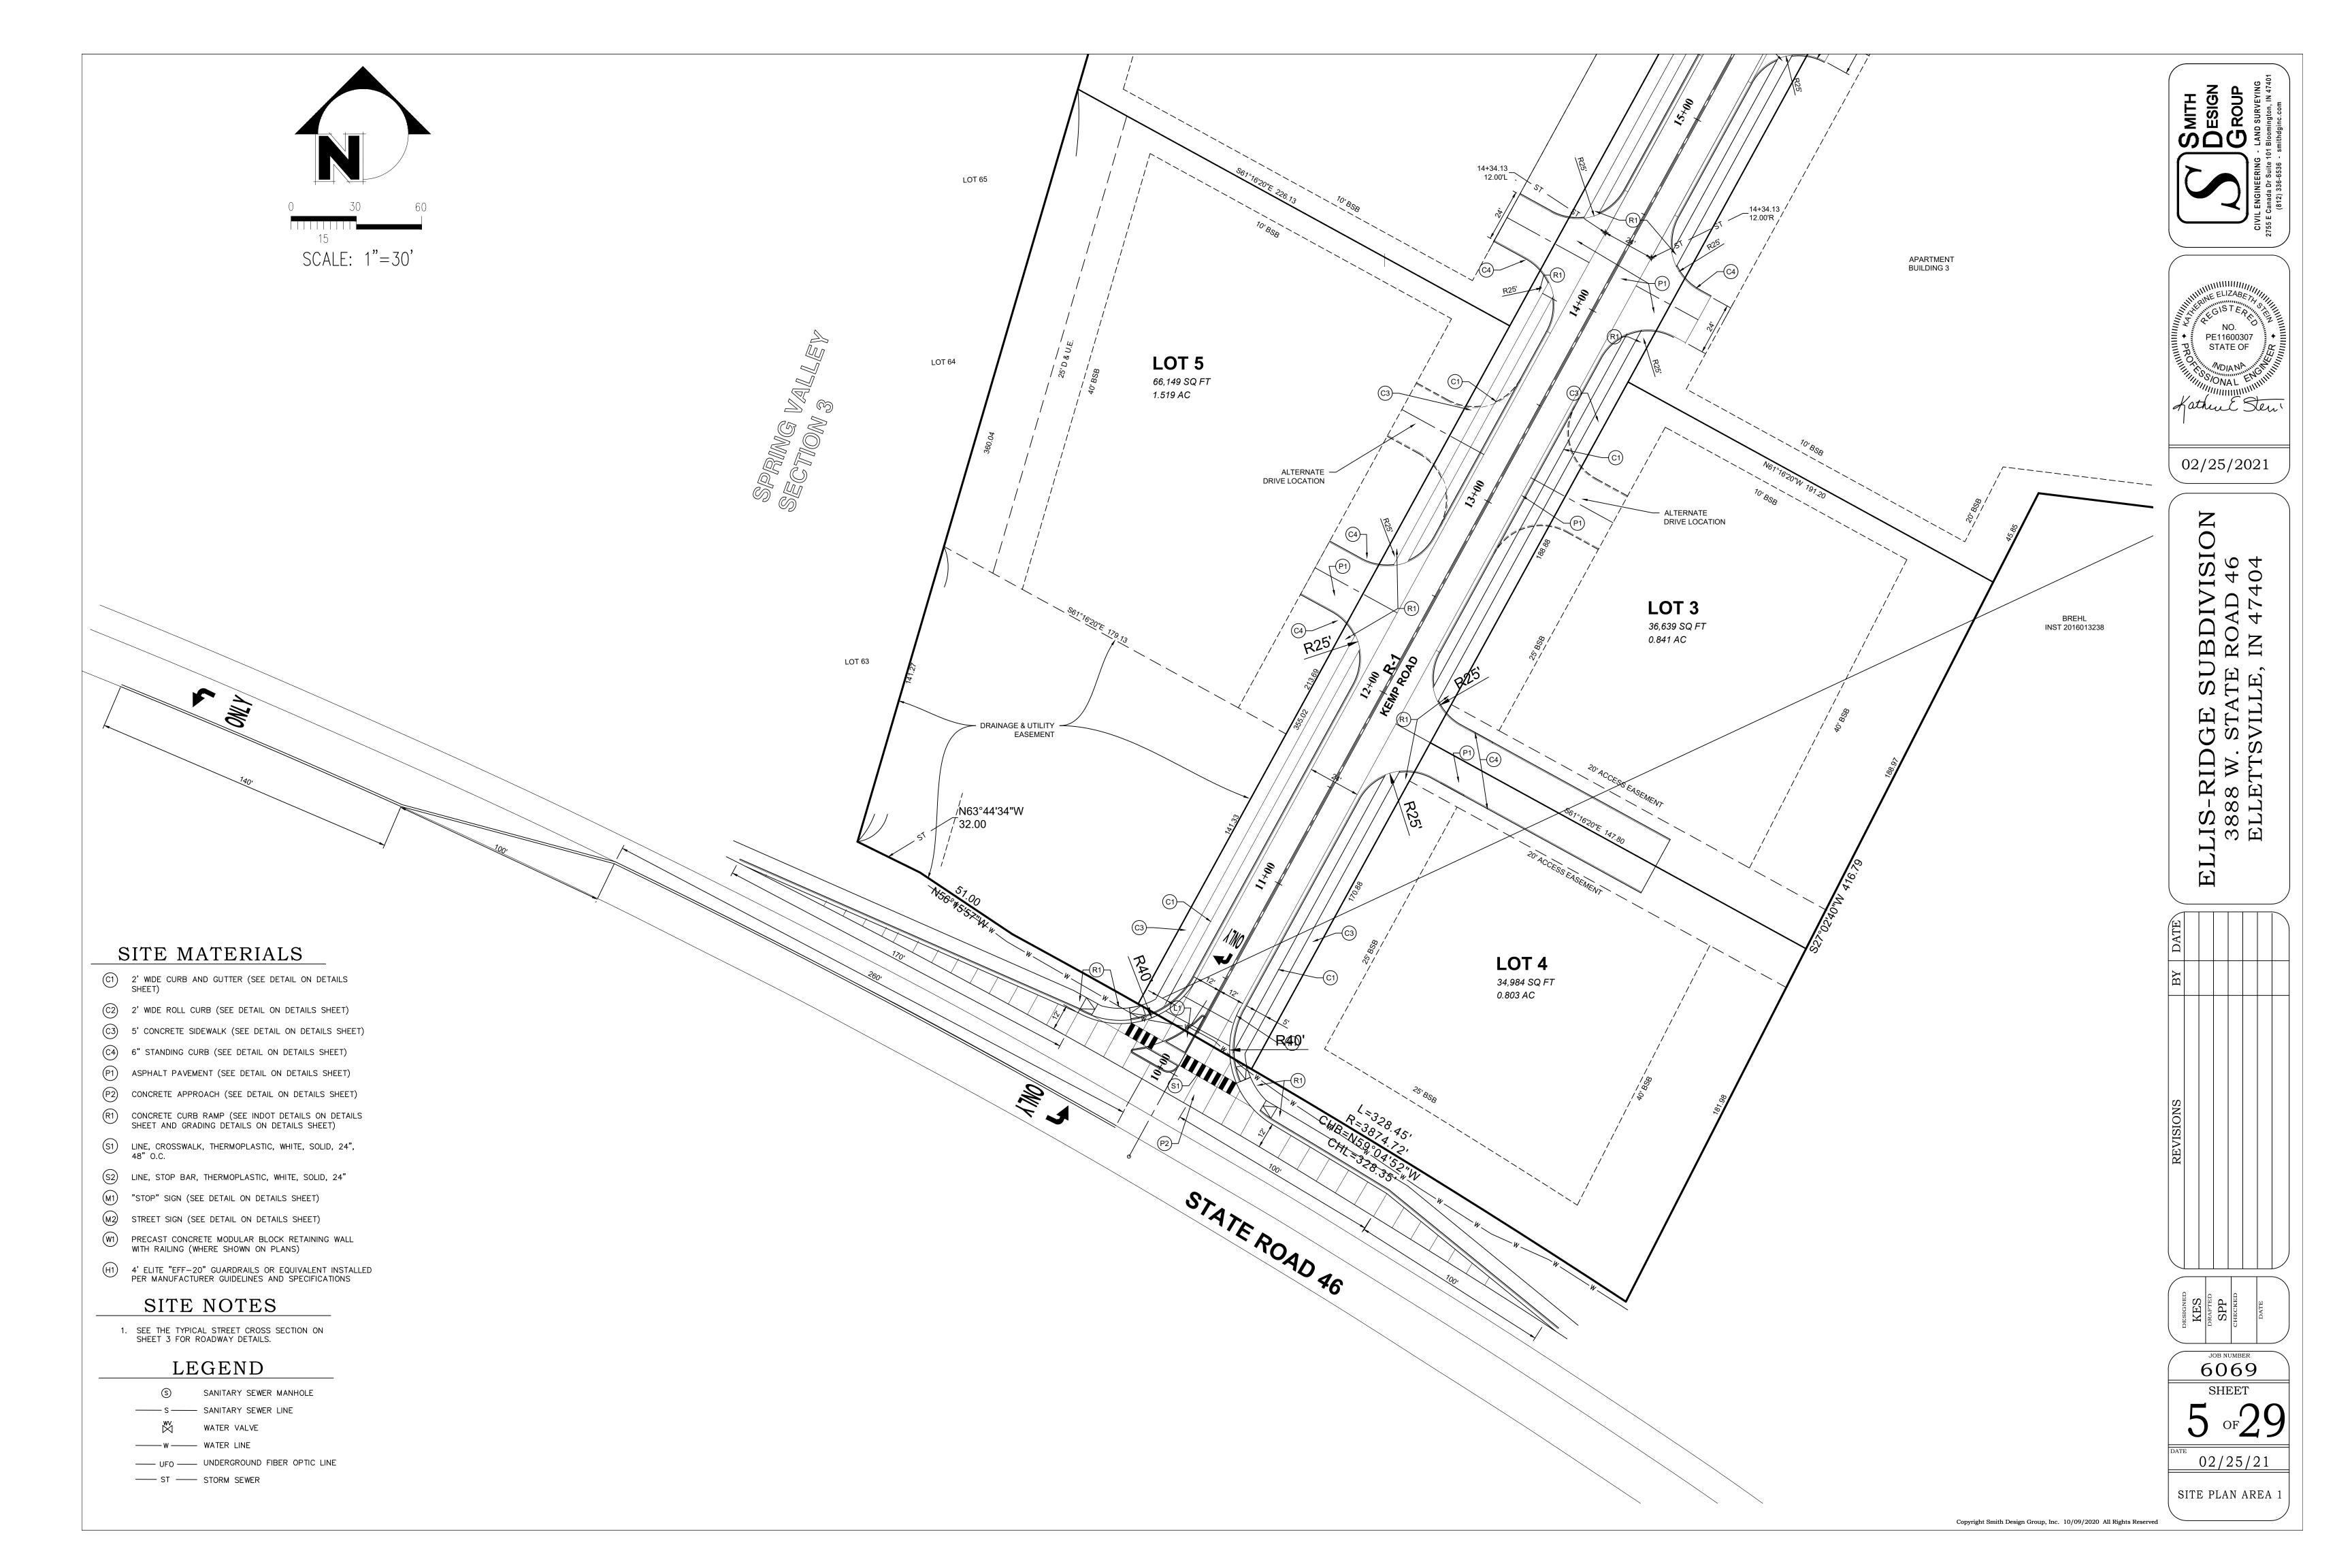

No Comments

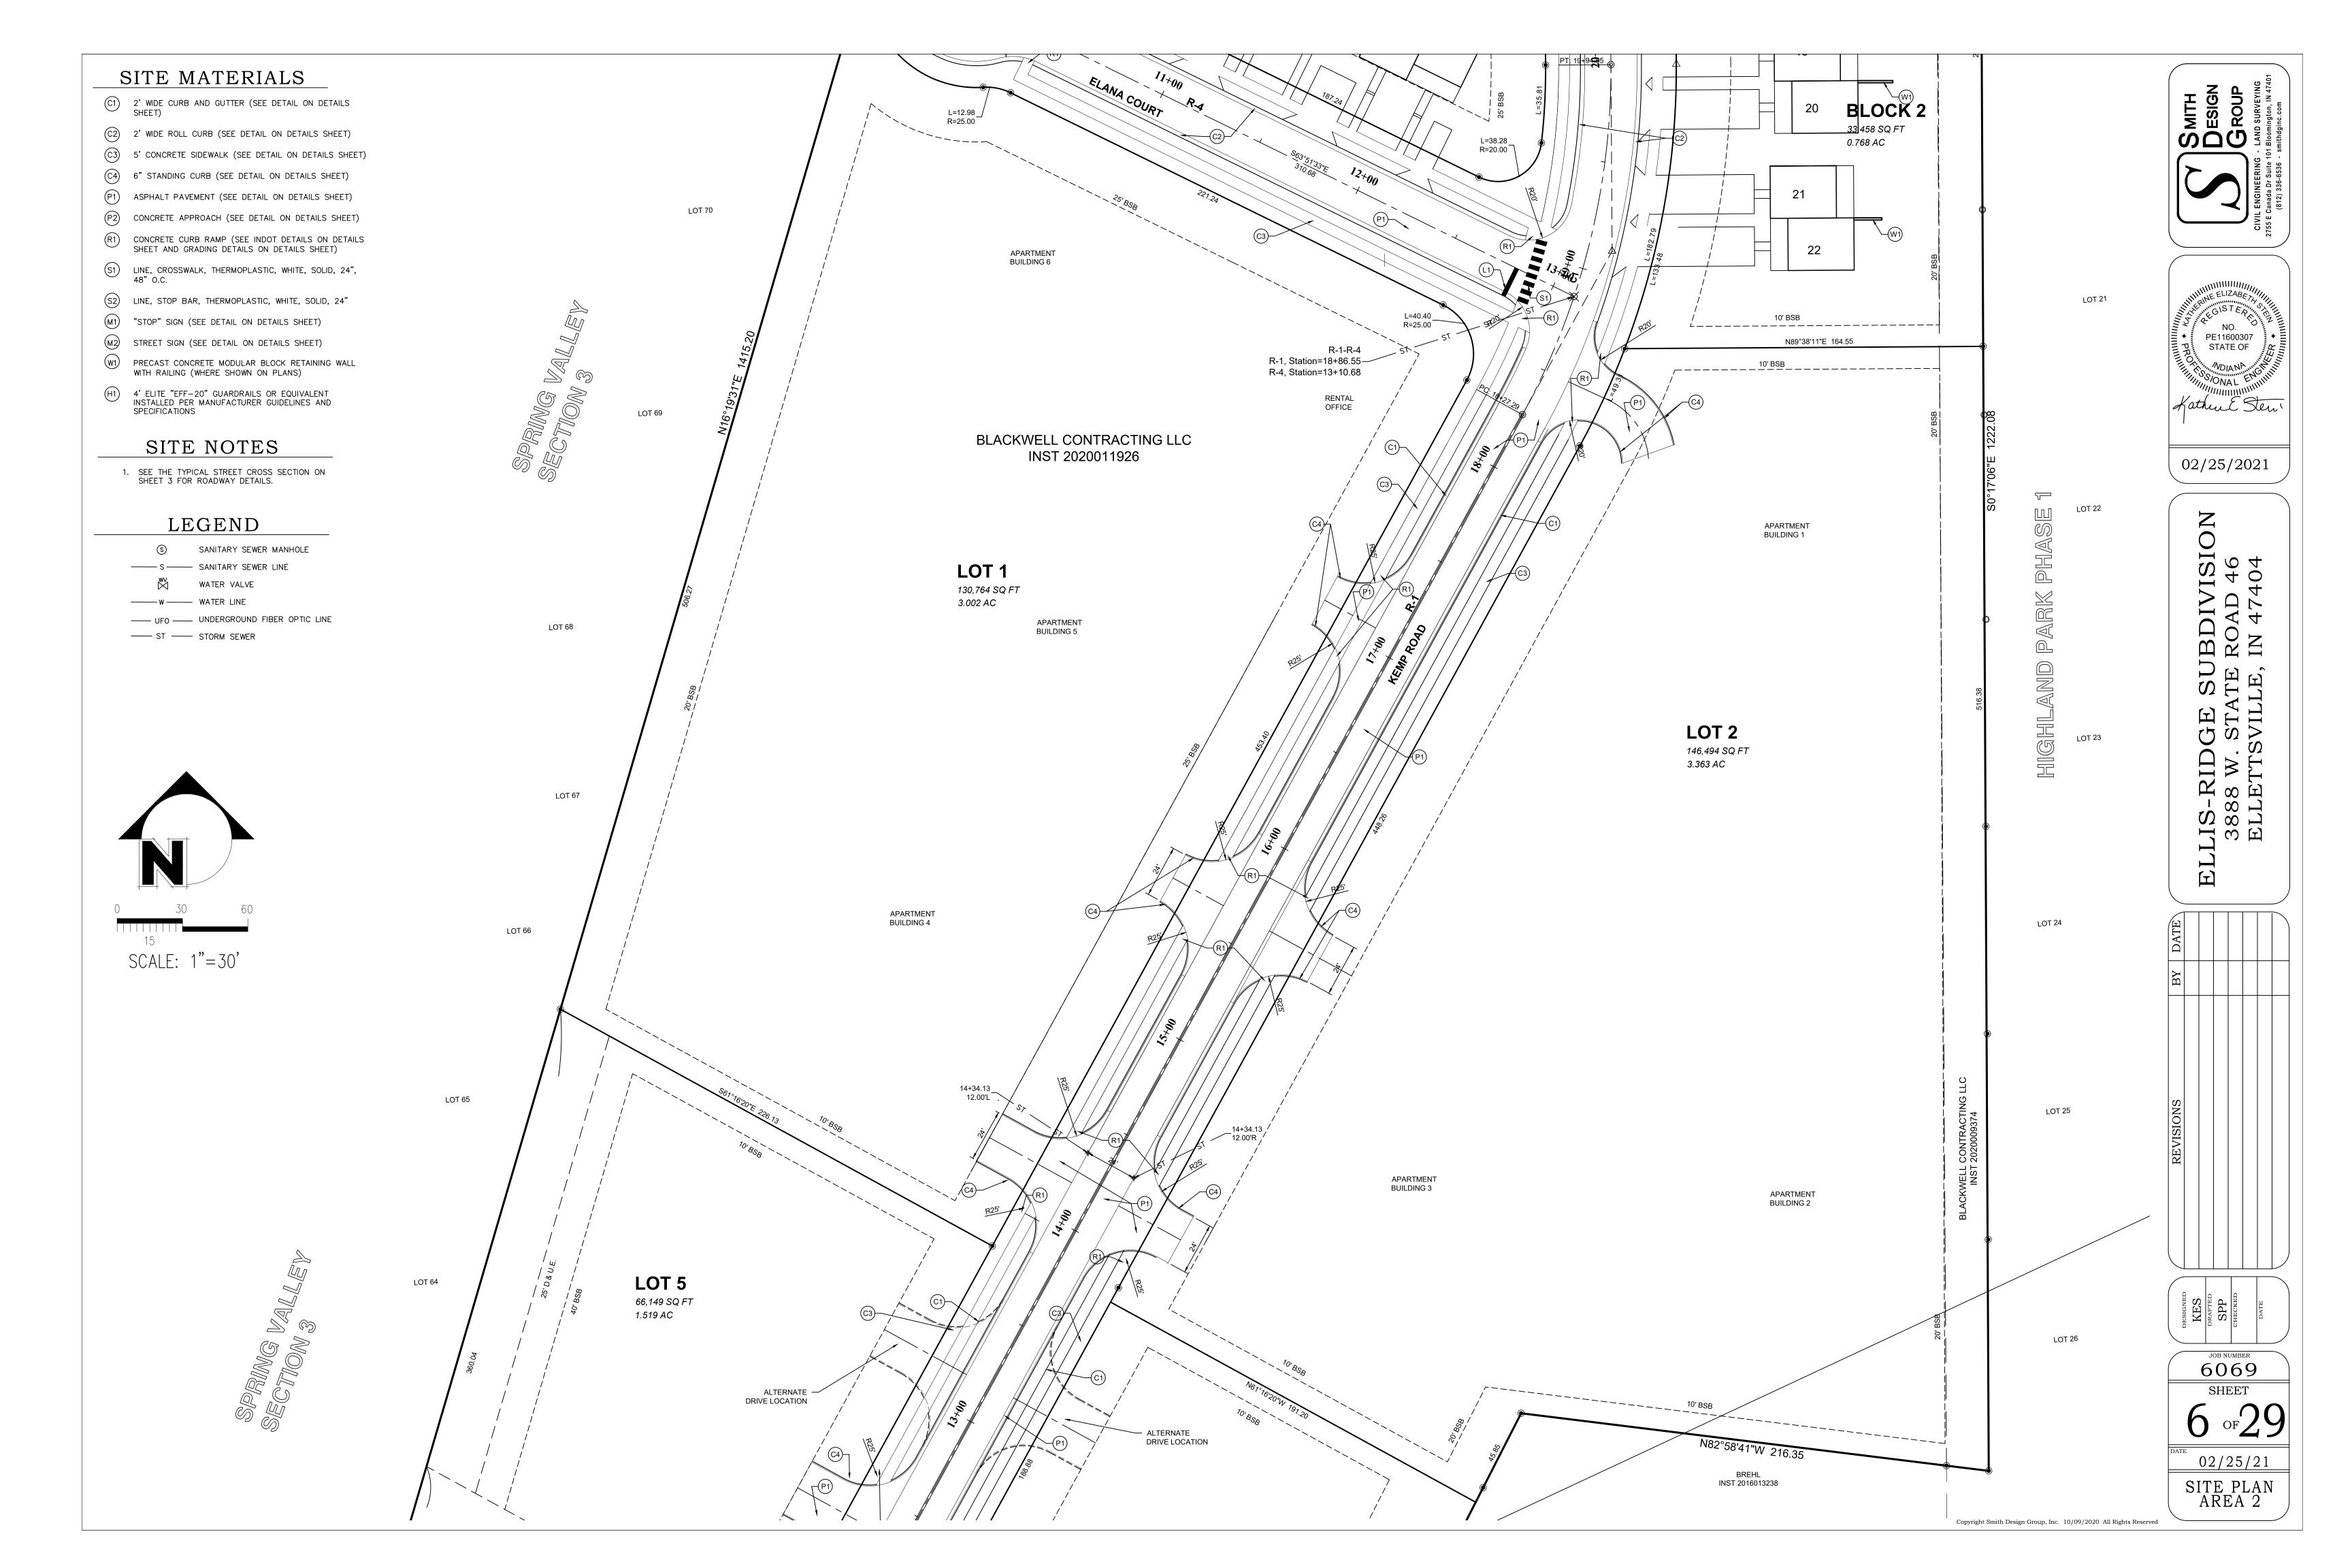

Summary

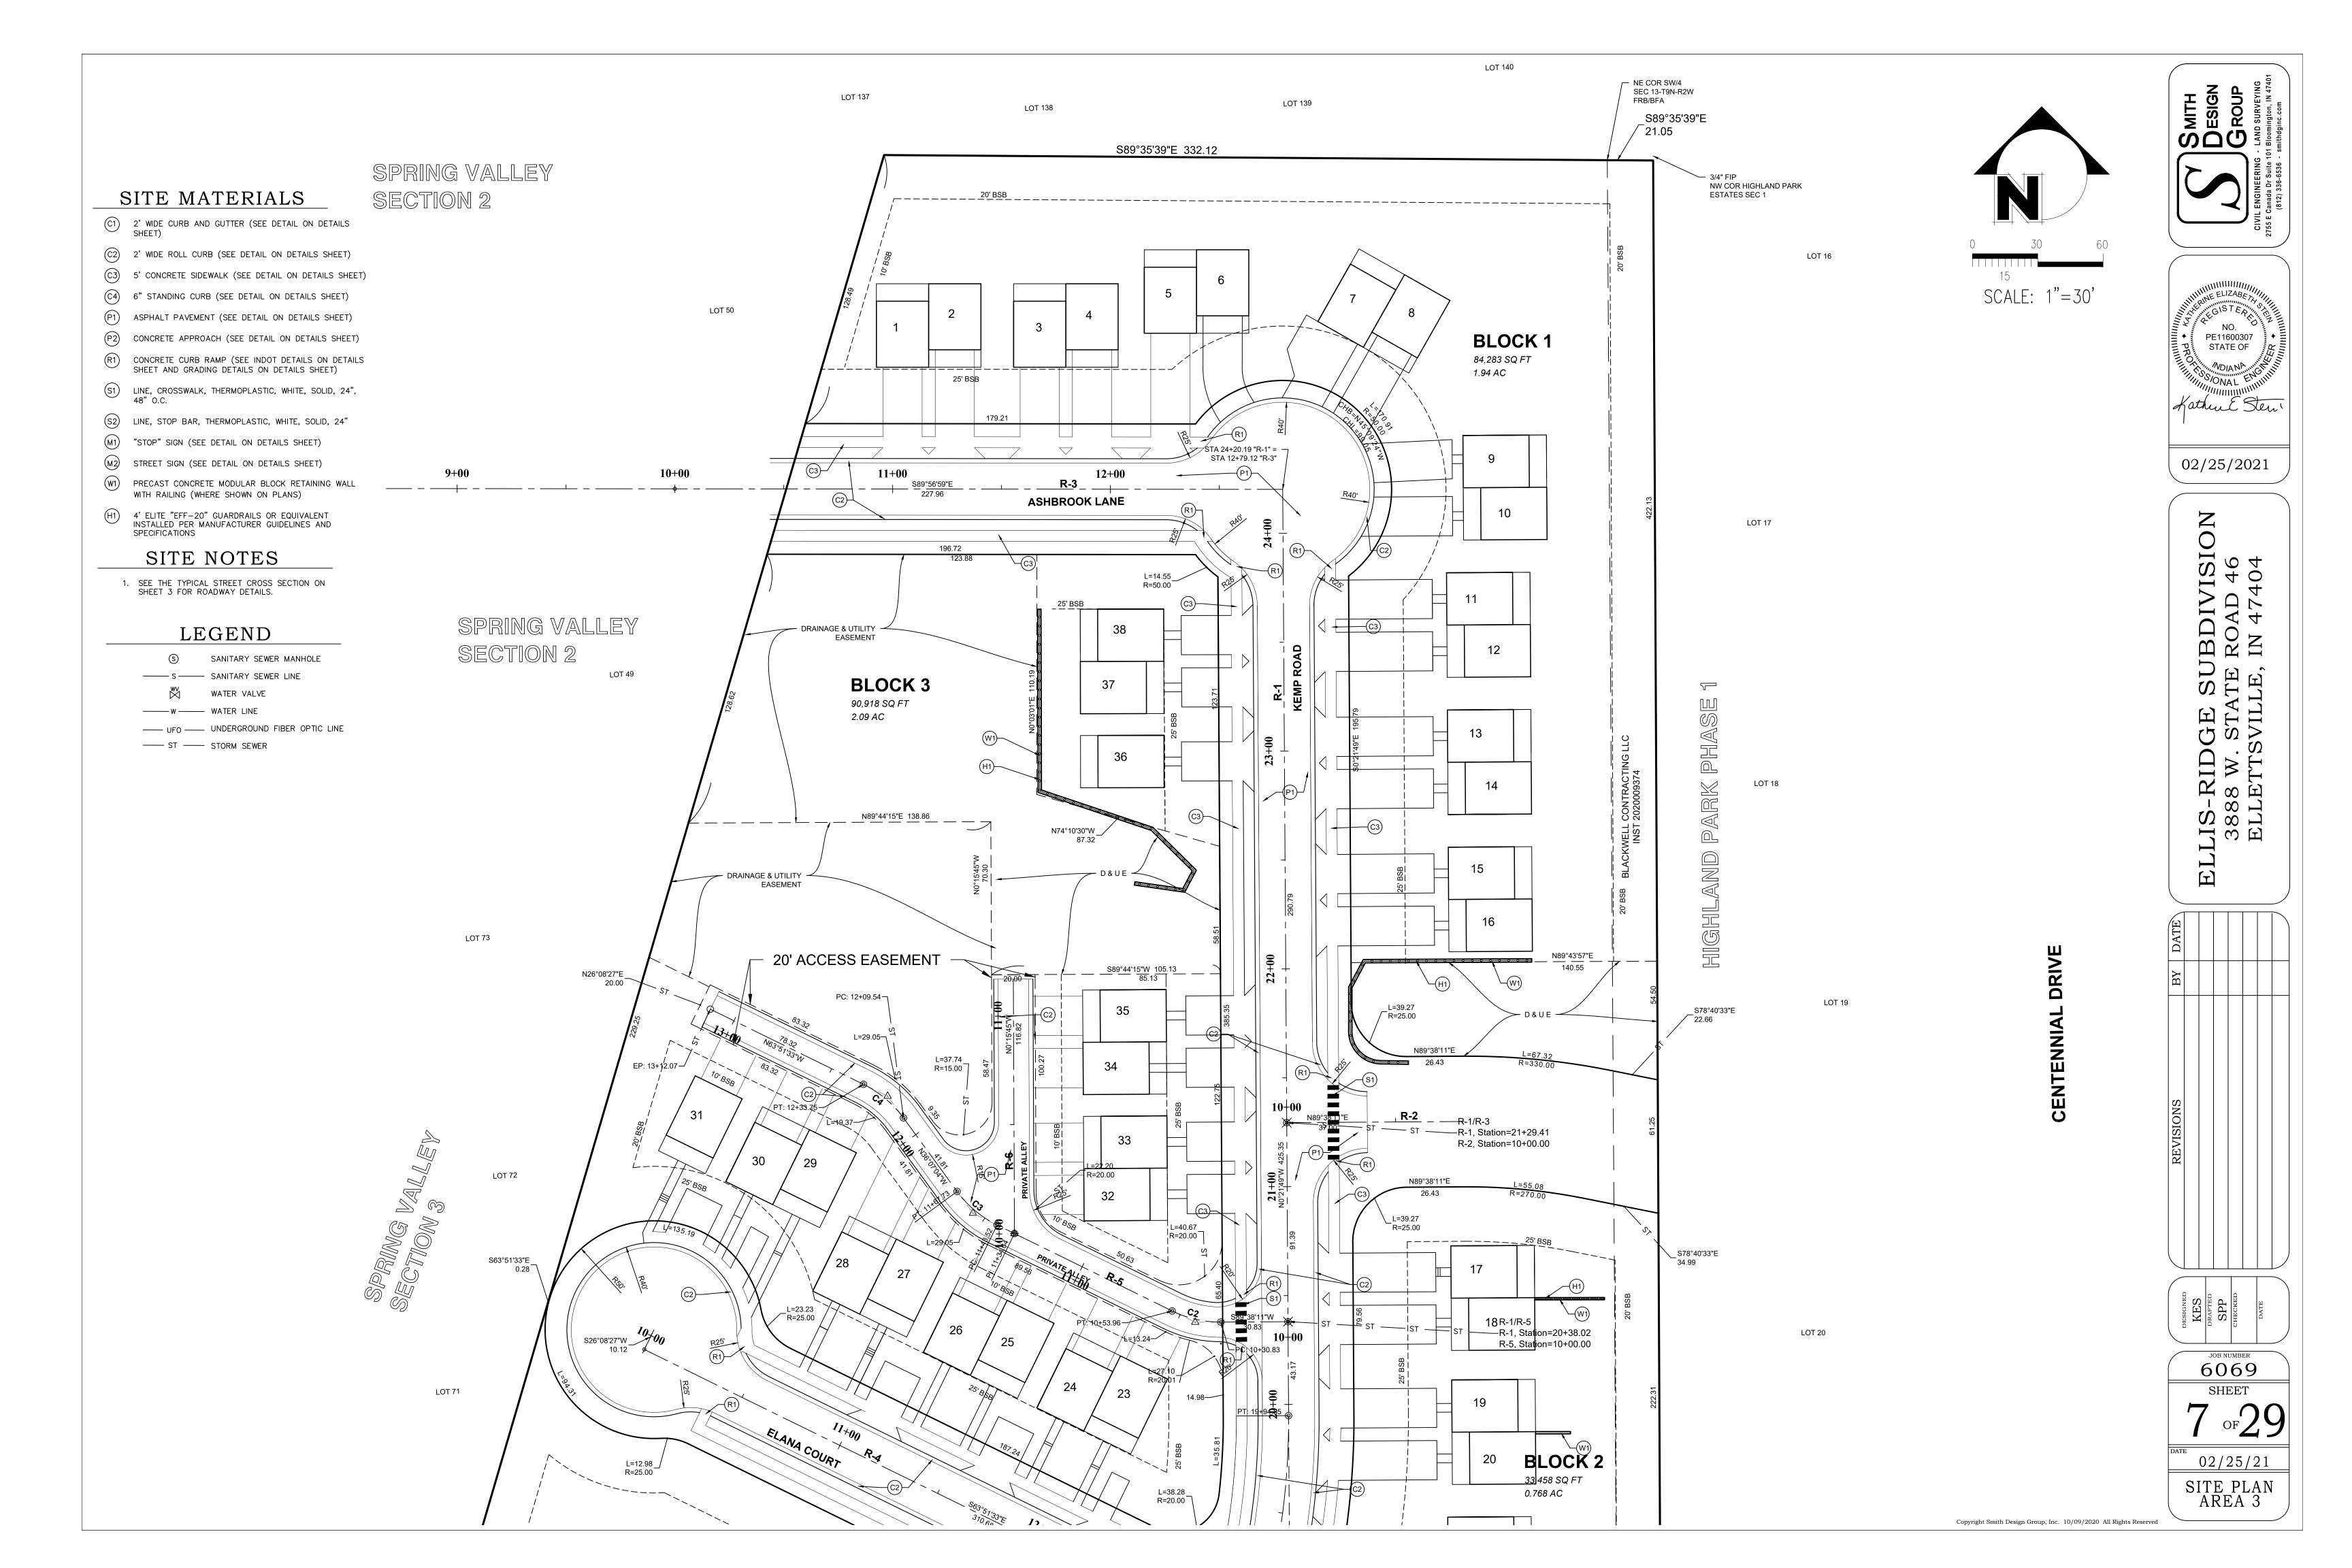

The preliminary plat request is for the proposed Ellis Ridge mixed use subdivision. The Technical Review Committee met on December 17, 2020 to discuss the site plans. Those in attendance were Town Manager and Public Works Superintendent Mike Farmer, Town Engineer Rick Coppock, Assistant Planner and ADA Coordinator Denise Line, Fire Chief Mike Cornman, Street Foreman Kip Headdy, and Planning Director Kevin Tolloty. Also in attendance were Katie Stein, Architect, and Lana Allen on behalf of the developer. Comments have been received from Planning, Fire, Public Works, and Engineering. Any additional comments from the Technical Review meeting that are not listed above, shall still be taken into consideration. Plan Commission should approve the development plan after the above mentioned items have been addressed, but may also add conditions as they see fit.

PC 21-05- Zoning Map Amendment Petition Planned Unit Development (PUD) Staff Report

Petition

Case - PC 21-05 – Zoning Map Amendment. A request by Tyler Ridge, on behalf of the Ridge Group, to rezone a portion of parcel ID # 53-04-13-300-062.000-013 from C-3; General Commercial to PUD; Planned Unit Development. The property is located at 3888 W. State Road 46.

Surrounding Zoning Districts & Uses

	Zoning District	Property Use
North:	C-3; General Commercial	Undeveloped Residential
South:	C-3; General Commercial	Smith Pike Plaza/Undeveloped Commercial
East:	MR; Medium Density Residential (County)	Residential Subdivision (Highland Park Estates)
West:	R-1; Single Family Residential	Residential Subdivision (Spring Valley)

Considerations

- 1. The petitioner is requesting to rezone 6.33 acres, located 3888 W. State Road 46, parcel #53-04-13-300-062.000-013 from C-3; General Commercial to PUD; Planned Unit Development.
- 2. Planned Unit Developments (PUD's) are treated as a separate zoning district by Indiana Code, and shall be approved in the same manner as a zoning map amendment.
- 3. Indiana Code (IC 36-7-4-603) requires that the Plan Commission and the legislative body shall pay reasonable regard to:
 - a. The comprehensive plan;
 - b. Current conditions and the character of current structures and uses in each district;
 - c. The most desirable use for which the land in each district is adapted;
 - d. The conservation of property values throughout the jurisdiction; and
 - e. Responsible development and growth.
- 4. The property was previously residential and is currently undeveloped.
- 5. The PUD will cover two (2) parcels, which would allow multi-family residential.
- 6. The eleven (11) acres not included in the PUD, both to the north and south, will remain C-3.
- 7. The property is bordered by residential subdivisions to the east and west, with two-family residential proposed due north. Future development due south is expected to be commercial and there is already commercial on the south side of State Road 46.
- 8. A defined bufferyard is shown in accompanying maps.
- 9. The minimum dwelling unit size would be reduced from 650 square feet to 415 square feet, which would allow for studio apartments.
- 10. Parking setbacks have been included in addition to building setbacks, and are as follows:
 - a. Front parking setback 25'
 - b. Side parking setback 10'
 - c. Rear parking setback 10'
- 11. Required parking would be reduced to correlate with the size of the apartment:
 - a. 1 space per studio apartment
 - b. 1.5 spaces per one bedroom apartment
 - c. 2 spaces per two bedroom apartment
- 12. Lighting will be provided and required to measure at zero foot candles at the property line so as not to spill onto surrounding properties.
- 13. Total density for this project is based on Dwelling Unit Equivalence (DUE) as follows:
- a. Less than 550 square feet = 0.33 units
- b. Between 550 and 750 square feet = 0.5 units
- c. Between 750 and 950 square feet = 0.66 units
- d. 950 square feet and larger = 1.0 units

Criteria for Zoning Change Consideration

1. Comprehensive Plan: The change of zoning (<u>is</u> or is not) substantially in compliance with the existing comprehensive plan.

Staff Finding:

The Comprehensive Plan calls for commercial type development along the State Road 46 corridor which includes multi-family type uses. The comprehensive plan also strongly recommends infill development, which this would fulfill. The rezoning will not cause any interference with compliance with the comprehensive plan.

2. Current Conditions: The change of zoning (<u>is</u> or is not) based on the current conditions of the property and the surrounding character of the land.

Staff Finding:

The property has been zoned commercial upon annexation into Ellettsville in 2006, due in large part that it directly fronts along State Road 46. The change in zoning is rather minimal in scope, as the PUD would allow multi-family residential, which was previously permitted in this zoning district at the time it was zoned commercial. Other higher intensity commercial uses which are currently permitted would no longer be allowed. The use of this property for multi-family housing is less in intensity than nearby commercial uses.

3. Use of the Property: The change in zoning (<u>does</u> or does not) result in allowance of the most desirable use of the property.

Staff Finding:

Multi-family housing (housing type diversity) is much needed in Ellettsville and this property is one of the very few that would be able to support this type of use. Although the entire property is zoned C-3 currently, more intense commercial uses are not necessarily appropriate in the central and northern portion of this parcel. The use of the central area of this parcel for multi-family housing serves as an ideal transition from higher intensity commercial to lower intensity paired patio homes.

4. Conservation of Property Values: The use or value of adjacent properties and those throughout the Town (will or <u>will not</u>) be affected in a substantially adverse manner.

Staff Finding:

The rezoning of this property to a PUD which would allow for multi-family housing, is mostly a minor change to the current zoning. Considering that multi-family housing was allowed in the current C-3 zoning district at the time this parcel was annexed, it is reasonable to believe that the zoning change will have minimum effect on property values. Additionally, multi-family housing is still permitted in the C-3 zone on upper levels of commercial buildings. Therefore, this is not really a change in permitted uses, rather a change in the building layout of such uses.

5. Responsible Development: The change in zoning (<u>does</u> or does not) promote the responsible development and growth of the property.

Staff Finding:

The change would actually limit the intensity of uses available, which in turn would significantly lower the expected traffic volume. Without the PUD, any size of high intensity commercial operation could use the property by right.

Plan Commission Action

The Plan Commission action shall be in the form of a favorable, unfavorable, or no recommendation to Town Council, which takes final action on the zoning map amendment petition.

Summary

The change in zoning of this parcel from C-3 to a PUD is a relatively small, but significant, change, with the main differences being the allowance of multi-family housing, a proposed reduction in parking, and a reduction of minimum dwelling unit size. A diversity of housing types is needed to keep Ellettsville a growing community and to provide housing at a more affordable level than the new single-family homes that are currently being constructed. The primary concern with the development of this property is traffic access, however, the change is uses allowed would limit more severe traffic impacts from currently permitted uses and allow this property to grow more responsibly. Therefore, Staff recommends a favorable recommendation to Town Council for the Flats on 46 PUD. The Plan Commission shall use the five (5) criteria above to base their recommendation to Council.

Submitted by Kevin Tolloty, AICP Director of Planning, Town of Ellettsville February 26, 2021 (revised)

These are the updates to the Outline Plan:

- Development Standards: Rear AND side yard BLDG setbacks adjacent to different zoning districts to double (C-3 only requires rear yard setbacks to double)
- Development Standards: Rear and side yard parking setbacks to be half of building setbacks (I don't believe this is different from C-3 standards)
- Site and utility plan reflecting the changes mentioned above as well as the buffer yard trees spaced 20' per proposed PUD outline plan "Bufferyard" standards
- Traffic Memo from A&F We asked A&F Engineer to provide a comparison table for the proposed PUD vs. realistic by-right development. The by-right development of commercial with apartments above allowed:

Total Commercial space = 6 bldgs x 7,500 SF = 45,000 SF Total Multifamily Units = 17.4 units/acre x 6.33 acres = 110 Unit

However, this is not realistic for the site due to the requirements for parking, so we provided a realistic density to A&F for Commercial space of 35,000 sf and 100 units. As A&F concluded the PUD proposed is by far less trips than a realistic by-right development.

MEMORANDUM

DATE: 2/11/2021

TO: Tyler Ridge

Ridge Corporation

FROM: Matt Brown, PE/PTOE

Vice President

A&F Engineering Co., LLC

RE: Flats on 46

A&F Engineering prepared a comprehensive traffic impact study on a site located along SR 46 between Deer Park Road and Centennial Drive in Ellettsville, Indiana. As a follow up to the traffic study, a traffic generation comparison between the proposed PUD plan (submitted by Ridge Corporation) and a by right plan (a realistic plan that could be built without zoning changes) has been prepared. The following table summarizes this comparison.

Development Plan	Land Use	Size	AM Peak Hour Trips	PM Peak Hour Trips	24 Hour Weekday Trips
PUD by Ridge Corp.	Multi-Family	168 Dwelling Units	57	73	914
Doolistic Dy Dight	Multi-Family	100 Dwelling Units	203	256	3101
Realistic By Right	General Retail	35,000 Square Feet	203	256	3101

Based on the results above, the realistic by right development plan would generate approximately 3.5 times the number of trips during the peak hours and throughout a typical weekday than the plan submitted by Ridge Corporation. Therefore, it can be concluded that this plan would have a far greater traffic impact on the surrounding roadway network than the multi-family only plan proposed by Ridge Corporation.

The Flats on 46 Planned Unit Development Outline Plan Statement

Overview

The site is located on the north side of State Road 46, west of the North Smith Pike/Centennial Drive intersection in Ellettsville, Indiana. This project will be located on Lot 1 and 2 of the proposed 17.53-acre Ellis-Ridge Subdivision. The property has been vacant and is a gateway property to the Ellettsville community. This is an in-fill site and is ideal for development to contemporary uses consistent with the future growth of Ellettsville. The project is located along a main roadway, designed to accommodate traffic flow and adequately meet the needs of a multifamily development. Adequate utility infrastructure will be in place with construction of the Ellis-Ridge Subdivision to meet the needs of the development. Existing access points are present on the north and south of the site connecting through the proposed subdivision of which the site is a part. The property is underutilized and needs to be redeveloped to create a first impression of Ellettsville for those traveling along State Road 46 from State Road 37 and the I-69 corridor. Redevelopment of the property as a Multi-Family Planned Unit Development is appropriate use for the property from both a development and tax base standpoint. A unified development with good visibility, new and architecturally pleasing buildings, good access and a complete landscape package will make the appropriate first impression on those traveling to and those currently living in the Ellettsville area.

Existing Zoning and Property Size

The existing property is approximately 6.36 acres and is part of the proposed 17.53-acre Ellis-Ridge Subdivision. The property is currently zoned C-3 Commercial which includes multifamily as a special exception. The adjacent land to the north and south will be part of the proposed Ellis-Ridge Subdivision and will maintain the C-3 zoning. The adjacent property to the east is within Monroe County Jurisdiction and is zoned LR (Light Duty Residential, 3 units per acre) and the adjacent property to the west is zoned R-1 (lot size of 10,000 sf or 4.35 units per acre).

Proposed Zoning

The proposed zoning of the property is PUD (Planned Unit Development). The PUD will include 168 apartment units consisting of 48 studio apartments, 72 one-bedroom units and 48 two-bedroom units. The studio units will be 415 square foot, one-bedroom units will be two sizes:

562 square feet and 612 square feet, and the two-bedroom units will also be two sizes: 915 square feet and 890 square feet. In addition, there will be a management office, club house and park/greenspace area.

Proposed Uses

The proposed use of the property is multi-family residential apartments and associated uses such as management and maintenance facilities and park/greenspace. The mix of units and their size are intended for occupancy by young professionals working in the area. There is a need for these apartments at a rent that is consistent with the income of early career professionals. Attraction and retention of these tenants is important to the economic development of Ellettsville and the region. The petitioner has developed a similar project on the north side of Tapp Road, east of I-69 interchange and the experience with occupancy of that project confirms the need. The units in that project are renting as they become available and the tenants are the type sought for the proposed project in Ellettsville. The unit size and type are attractive to young, employed professionals desiring a comfortable, mature and convenient neighborhood.

Illustrative Plan

An illustrative Plan has been prepared showing how the site could be developed based on permitted land uses and development standards. The key components are access location, buffer area and general lot layout. The illustrative plan shows a concept plan for the property but is not intended to be a detailed plan for development. A more detailed plan will follow at the Development Plan approval stage of the project.

Buffer Area

The existing wooded area located at the eastern and southern edge of Lot 2 will be preserved and maintained as a buffer area to the greatest extent possible. This wooded area is approximately 0.25 acres in size and shall serve as a buffer area between the development and the neighborhood to the east.

The existing wooded area located at the western edge of Lot 1 will be preserved and maintained as a buffer area to the greatest extents possible. This wooded area is approximately 0.14 acres in size and shall serve as a buffer area between the development and the neighborhood to the west.

Additional trees or buffering (i.e. fence) will be included within the building setbacks to serve as the buffer areas for privacy between the development and neighboring properties at the time of the development plan.

Open Space

Open space is included within the development and totals approximately 1.18 acres or 18% of the property. This includes the interior open space within the lots and the community park and excludes the buffer yards. The total open space including buffer yards is approximately 2 acres or 31% of the total property.

A larger portion of the open space will include a community park in the middle of the development that will feature possible amenities such as a dog run, bocce ball, shelter with grills, etc. This park will be an amenity to be utilized not only by the multi-family residents, but also the surrounding neighborhoods.

Development Standards

A complete list of applicable development standards for the PUD are shown on Table A. Those not expressly noted would revert to the Town of Ellettsville requirements for a C-3 zoned property.

Landscape Standards

Landscaping for the PUD shall utilize native plant material. A complete list of landscaping standards and requirements is listed in Table B. The intent of the landscaping requirements of the PUD is to provide an attractively landscaped development, encourage native plant material use to reduce the need for irrigation and set minimum standards

Road and Access Standards

Access to this project will be through the Ellis-Ridge Subdivision. A full access drive will be provided onto SR 46 and a second access point will be from Ashbrook Drive from the north. There will be several drive cuts along the main north/south road within the Ellis-Ridge Subdivision for access to the internal parking areas to this project. All internal parking lots shall be asphalt or concrete pavement with concrete curb perimeter.

Sanitary Sewer

All lots shall be served by and connect to the Eastern Richland Sanitary Sewer system which will be installed as a part of the Ellis-Ridge Subdivision. Although not a proposed use, any development within the PUD with a commercial kitchen will be require the installation of an external grease interceptors.

Water Service

All lots shall be served by and connected to the Town of Ellettsville Utilities water system. This system will be extended as required to serve the developments domestic and fire protection needs as a part of the Ellis-Ridge Subdivision. Master-metering of the multifamily residential component will be permitted.

Storm Water Management

Storm water management will be provided by the Ellis-Ridge Subdivision design. Stormwater runoff from this PUD will be directed either to a common detention pond located south of the project or directed to a common detention pond located north of the project. The common detention ponds are adequately sized to provides detention and water quality needs for this PUD. The common detention ponds will be owned and maintained by the Ellis-Ridge Subdivision Owner's Association.

A storm sewer system along the main north/south road within the Ellis-Ridge Subdivision will be utilized for this PUD to convey stormwater runoff to the appropriate common detention ponds.

Lighting

Lighting within the development, whether street lighting, parking lot lighting, bollard lighting or accent lighting shall be pedestrian scale lighting, meaning that no fixture may extend higher than 14'. All lighting fixtures will be shielded cut-off type fixtures and downward directed. The maximum foot candle level at the property line of any lot shall be zero. This limitation will preclude light spill or glare onto adjacent properties

Schedule

Development will begin within 1 year following approval of the PUD Development Plan. It is anticipated that the Development Plan submission and processing would follow the Outline Plan approval within 6 months. The project will likely require 2 years for complete build out.

Landscape Requirements

Table B

(a) Placement of Landscape Materials:

- (1) Rights-of-way and Easements: It shall be the responsibility of the property owner to install and maintain landscape material in rights-of-way or easements. Plant types shall be approved by either the Town or the easement holder.
- (2) Utility Infrastructure: Trees shall be located to avoid significant interference with overhead or underground utilities, including lateral connections. Trees shall be planted at least ten (10) feet from sanitary sewer and water service lines. A tree canopy may project over a right-of-way or easement. All landscaping plans shall be reviewed by the Town Utilities Department in order to ensure that there are no conflicts between proposed landscaping and utility lines.
- (3) Vehicular and Pedestrian Movement: Plant materials shall be located to avoid interference with vehicular and pedestrian movement. Plant materials shall not project over sidewalks, paths, or trails below a height of eight (8) feet. Plant materials shall not project over street curbs or pavement within rights-of-way or access easements below a height of fifteen (15) feet.
- (4) Vision Clearance: Materials shall be located to avoid interference with visibility.
- (5) *Distribution*: Required landscaping shall be reasonably distributed throughout all open space areas. It is suggested that the required plantings be planted in clusters or irregular patterns, and that native grasses and other native species be used for ornamentation in addition to the required plantings.
- (b) <u>Maintenance</u>: Developers and their successors in interest shall be responsible for the regular maintenance of all landscaping elements in perpetuity. Failure to maintain all landscaping is a violation of the PUD zoning ordinance and subject to enforcement. Specifically:
 - (1) All plant material shall be maintained alive, healthy, and free from disease and pests.
 - (2) All landscape structures including, but not limited to, fences and walls shall be repaired or replaced periodically to maintain a structurally sound and aesthetic condition.

(c) Plant Material Standards:

- (1) Live Plantings: All plant material shall be living species. Dead, diseased, or artificial plants shall not be recognized as contributing to require landscaping.
- (2) Species Diversity: On sites that require an aggregate total of twenty (20) or more new trees, any given species of tree shall be limited to a maximum of thirty-three percent (33%) of the total number of newly planted trees on site.
- (3) *Permitted Plant Material*: All plant material shall be selected from the material listed in this section. Substitutions to the list shall be submitted to the Planning Department for approval.

- (4) Prohibited Plant Material: Species identified in within the invasive and Poor Characteristics Species shall under no circumstances be planted.
- (5) New Planting Sizes: The following minimum sizes shall apply to all required plant material:
 - (A) Deciduous Trees: All newly planted deciduous trees shall be at least two (2) inches in caliper.
 - (B) Evergreen Trees: All newly planted evergreen trees shall be at least six (6) feet tall.
 - (C) Shrubs: Shrubs shall be at least three-gallon container size or eighteen (18) inches tall. (6)
- (d) <u>Street Trees</u>: Existing street trees shall be preserved to the extent possible. Additional street trees shall be added where required as follows:
 - (1) *Number*: A minimum of one (1) canopy tree shall be planted per forty (40) feet of property that abuts a public right-of-way or private street within the Flats on 46 PUD.
 - (2) Location:
 - (E) Vision Clearance: Street trees shall be planted outside the vision clearance triangle. Within fifty (50) feet of an intersection, street trees may be planted behind the sidewalk in order to maintain sight distances for traffic control signs. Low-branching species shall not be allowed within fifty (50) feet of an intersection. Locations for street trees within fifty (50) feet of an intersection shall be *approved* by the Town Street Department. Street trees shall be located a minimum of ten (10) feet from a driveway cut, traffic control sign, or street light, and a minimum of three (3) feet from a fire hydrant.
 - (3) *Type*: Street tree species shall be selected from those listed within this section.

Landscaping Standards; Multifamily Residential

This Landscaping Standards section applies to the following zoning districts:

- (a) <u>Interior Plantings</u>: The following standards apply:
 - (1) *Trees*:
 - (A) Number: Any areas of a site not covered by a structure, parking lot or required buffer yard shall be planted with a minimum of fourteen (14) large canopy trees, five (5) evergreen trees, and five (5) medium or small canopy trees per acre.
 - (2) Shrubs:
 - (A) Number: Lots shall be planted with a minimum of thirty-six (36) shrubs per acre.

- (B) Type: A minimum of fifty percent (50%) of the required shrubs shall be evergreen.
- (C) Substitution: One (1) ornamental tree may be substituted for every four (4) shrubs; however, substitution shall not exceed fifty percent (50%) of the required shrubs.
- (D) Foundation Plantings: Shrubs and ornamental trees along foundation walls of structures shall be planted no closer than two (2) feet and eight (8) feet respectively from the foundation wall.

Buffer Areas

This Landscaping Standards section applies as follows:

- (a) Multifamily Residences Existing tree lines along the property boundaries shall be preserved to the greatest extent possible.
- (b) Multifamily Residences There shall be a landscape buffer of a minimum of 6' high and 10' wide between the multifamily area and adjacent properties that are single-family residential use that share a common lot line. The buffer shall include a mix of evergreen trees and tall deciduous shade trees with a spacing between of 20'.
- (c) Responsibility: The developer or owner of the property being developed is responsible for installing the buffer yard at the time of that development. The adjacent property owner shall not be required to participate in the installation of the buffer yard.
- (d) Location: All required buffer yard areas shall be provided entirely on the subject property and may be placed within the setbacks. The required buffer yards shall be installed despite the presence of streets, alleys, streams or other features that may separate the two properties.
- (e) Plant Material: All plant material used to meet the buffer yard requirements shall meet the standards and shall be selected from the list of permitted plant species.
- (f) Groundcover: All portions of a buffer yard not planted with trees, shrubs, or other required landscape materials shall be covered with grass or similar ground-covering vegetation. Landscaping stone or other non-vegetative materials may not be substituted for ground-covering vegetation. Decorative mulch or stone planting beds may be used around trees, provided that such planting beds are no greater than six (6) feet in diameter.

Proposed Plant Material

Street Trees

Littleleaf Linden

Trees suitable for planting along public streets and highways, parking lots, and in locations where low maintenance and hardy constitution are required. (Bold indicates native species)

Permitted Plant Species by Characteristics and Location

Large street trees 45' and over at mature height

•	3
Common Name	Scientific Name
Black Maple	Acer nigrum
Red Maple	Acer rubrum
Sugar Maple	Acer saccharum
Sugar Hackberry	Celtis laevigata
Hackberry	Celtis occidentalis
American Beech	Fagus grandfolia
Thornless Honeylocust	Gleditsia triacanthos inermis
Kentucky Coffee Tree	Gymnocladus dioica
Sweetgum	Liquidambar styraciflura
Tulip Tree	Liriodendron tulipifera
Blackgum or Tupelo	Nyssa sylvatica
Sycamore	Platanus occidentalis
White Oak	Quercus alba
Swamp White Oak	Quercus bicolor
Scarlet Oak	Quercus coccinea
Shingle Oak	Quercus imbricaria
Bur Oak	Quercus macrocarpa
Red Oak	Quercus rubra
Shumard Oak	Quercus shumardii
Black Oak	Quercus velutina
Bald Cypress	Taxodium distichum
Basswood or American Linden	Tilia Americana

Medium street trees 25' to 45' at mature height

Tilia cordata

Common Name	<u>Scientific Name</u>
Autumn Flame Red Maple	Acer rubrum
Downy Serviceberry	Amelanchier arborea
American Hornbeam or Blue Beech	Carpinus caroliniana
Yellowwood	Cladrastis lutea
Hop Hornbeam or Ironwood	Ostrya virginiana

Small street trees under 25' at mature height

Common Name	Scientific Name
Shadblow Serviceberry	Amelanchier canadensis
Allegheny Serviceberry	Amelanchier laevis
Eastern Redbud	Cercis canadensis
Flowering Dogwood	Cornus florida
Thornless Cockspur Hawthorn	Crataegus crus-galli
Washington Hawthorn	Crataegus phaenopyrum
Green Hawthorn	Crataegus viridis
Flowering Crabapple	Malus sp.

Interior Trees

Trees suitable for use within the interior of a site.

Permitted street tree species listed in previous tables may also be used in addition to the species identified below.

Large trees 45' and over at mature height

Common Name	Scientific Name
Ohio Buckeye	Aesculus glabra
Yellow Buckeye	Aesculus octandra
Horsechestnut or Buckeye	Aesculus sp.
Bitternut Hickory	Carya cordiformis
Pignut Hickory	Carya glabra
Shellbark Hickory	Carya laciniosa
Shagbark Hickory	Carya ovata
Mockernut Hickory	Carya tomentosa
Northern Catalpa	Catalpa speciosa
Black Walnut	Juglans nigra
Eastern Red Cedar	Juniperus virginiana
Cucumber Tree	Magnolia acuminata
White Pine	Pinus strobes
Virginia Pine	Pinus virginiana
Black Cherry	Prunus serotina
Chestnut Oak	Quercus prinus
Canadian or Eastern Hemlock	Tsuga Canadensis

Medium trees 25' to 45' at mature height

Common Name	<u>Scientific Name</u>
River Birch	Betula nigra
Sassafras	Sassafras albidum
American Arborvitae	Thuja occidentalis

Small trees under 25' tall at mature height

Common Name	Scientific Name
Pawpaw	Asimina triloba
Persimmon	Diospyros virginiana
Silverbell	Halesia carolina
Wild Plum	Prunus Americana
Staghorn Sumac	Rhus typhina

Shrubs, Bushes, & Hedges. Plants suitable for individual, screen, biohedge uses (up to 12 feet at mature height)

Common Name	Scientific Name
Black Chokeberry	Aronia melanocarpa
Boxwood	Buxus species Caolinia
New Jersey Tea	Ceanothus americanus
Buttonbush	Cephalanthus occidentalis
American Hazelnut	Corulus Americana

American Hazelnut Corylus Americana
